REPORT OF 'MOU SIGNING CEREMONY

Title:	MoU signing ceremony with Mangrove Society of India
Date and year:	30 th July 2018
Venue:	Auditorium
Coordinating person/s:	Dr. A Untawale, Dr. V. Dhargalkar Dr. Nandkumar Sawant Dr. Nandini Vaz Fernandes
No. of Participants	103
Objective:	To organize joint activities in research, training, community outreach, co-curricular and extra - curricular areas and enable students to carry out internships.
Summary of the proceedings	<p>Parvatibai Chowgule college of Arts and Science (Autonomous) has embarked on yet another journey of research collaboration and community service by signing a Memorandum of Understanding with the "Mangrove Society of India" (MSI). The function was held at the auditorium of Parvatibai Chowgule College on 30th July 2018 and was attended by the faculty and students of department of Botany, Geography and Zoology and members of Mangrove society of India. The MoU will be Co-ordinated by Dr. AG Untawale, executive secretary of MSI and Dr. Nandkumar Sawant, Principal of Chowgule College. The conveners of the MoU are Dr. V Dhargalkar, joint secretary of MSI and Dr. Nandini Vaz Fernandes, Dean of life Sciences of Chowgule College. "We take pride in saying that we are the first and only autonomous college in the stat of Goa, and therefore hold greater responsibility not only in bringing innovation in teaching-learning, but also in making education more relevant through research, consultancy and extension works", said Dr. Sawant, principal of Chowgule college in his address to the delegates. He added that we need to synergize and collaborate with various organizations at different levels and have therefore signed MoUs with many national and international organizations.</p>

The objective of the MoU with MSI is to organize joint activities in research, training, community outreach, co and extra - curricular areas and enable students to carry out internships. Dr. Nandini Vaz Fernandes presented to the audience, the institutional strengths in terms of resources, research-infrastructure and faculty expertise at the three departments of Chowgule College. The MoU will facilitate students of geography, botany and zoology to carry out research projects with MSI as component of their internships. Such collaborative research projects will help to address the conservation needs of wetlands in Goa. Under the MoU the College also intends to conduct seminars /workshops/conferences, trainings and lectures and Public outreach programmes related to wetland Conservation. Application of Geospatial technology for the wetland studies will be the most important component based on the expertise in the department of geography, genetic studies in department of zoology and plant tissue culture in department of botany. On the occasion, Dr. Untawale, executive secretary of MSI said that creating awareness and making students inclined towards field based research in mangrove ecosystem and wetland as a whole is very essential to conserve the environment for future generation.
