1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?

(maximum 500 words)

Feedback Obtained

1. Student Feedback: Feedback is an integral part of the teaching-learning process. The feedback from the students is given utmost importance. Feedback forms are available and filled online by the students of the respective course for the teacher who is involved in delivering the course. The feedback about the course and its execution is given under the three titles title of 'Teacher's impact on Learning' in the form provided online (see Link). This feedback is then taken up for discussion at the department level and further discussed at the year end meeting at College level (with the principal) and then the suggestions pertaining to the course is referred to Board of Studies. The B.O.S then provides with valuable suggestion on the course (design, teaching-learning, evaluation and execution) (see action taken report of B.O.S suggestion) 2. Teachers Feedback and Academic Audit: The academic audit is undertaken at the end of every academic year. The audit is objective in nature. The dean of the respective faculty i.e. Languages, Social Sciences and Sciences along with a external member undertake the audit of the courses of a given department. The audit is organized with the help of the audit form, which is to be filled by the course teacher along with the documents to support the form filled (see Link). The audit form seeks information on four aspects i.e. Course design/planning and execution, Teaching-Learning and execution, Use of ICT and Evaluation. The report of the audit is shared with the course teacher and departmental head. This is further taken up with the B.O.S if there is a need in the modification of the course syllabus, evaluation modes or teaching-learning pedagogies. The courses thus undergo change, which is finally approved by the Academic Council. The academic audit ensures accountability, transparency of the course/course teacher and instils the need for quality. The Audit also provides the course teachers feedback about the course and its execution and the need for change or modification in the Teaching-Learning-Evaluation and Syllabus design. 3. Alumni Feedback: The Alumni feedback is crucial in the curriculum design process. The alumni feedback is taken from the Alumni through a questionnaire circulated personally by the department to its alumni. The feedback from the Alumni is analysed and it provides the departments vital inputs towards incorporation of skill development related to the Curriculum. 4. Employer Feedback: The Employer feedback is taken from the Alumni through their employers through a circulation of an employer feedback Questionnaire that covers different parameters. These include Knowledge base, Leadership Skills, Asset to Organisation and Sensitivity to Social responsibilities and Moral Values. The feedback analysis helps the departments and the college to relate to the Programme Outcomes and Programme Specific Outcomes and the need to modify the Curriculum further in order to achieve the outcomes not achieved as provided by the feedback. 5. Parents Feedback: Parents have entrusted the future of their children into our hands and thus they play a very important role in the development and enhancement of the quality of this learning experience. Feedback from parents allows the institute to evaluate its service provision and thus cater to providing excellent service towards the students. The feedback analysis process has put an increasing emphasis on the need for involvement of parents in the quality assurance of excellent education. This circulation, distribution of feedback forms and collection of filled feedback forms was done by the IQAC of the College.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Introduction: The college started the mentoring program in the academic year 2008-2009. It is one of the prominent student guidance facility available at the College which is also known as Staff Advisory Programme (mentoring). Mentoring of students is an integral part of our educational system it aims in providing guidance and support. Mentors play a key role in the college as they nurture students and help them remain connected and engaged, thus strengthening their performance. Mentor act as safety net on the campus to provide financial, social, academic and psychological assistance to students. Composition and Functioning: The college believes in heterogeneity where in each mentee is provided a mentor who is from different discipline (Department). Under this program, every mentor is assigned about 15 to 22 mentees under his/her guidance. There are 4 mentor-mentee meets during the course of each academic year. It is a platform for the mentor and mentee to build a rapport with each other. The positive dynamics of a teacher-student relationship encourages a safe and comfortable learning environment which in turn helps them to learn and grow thus, creating a safety net for the students. This role requires the mentor to establish a good rapport with the mentee to motivate and encourage him/her. The role of the mentor depends on the needs of the mentee and on the relationship he/she builds with his/her mentee. The role can be further divided into two broad areas: 1. Academics: In this role, mentor can act as a guide thus supporting and guiding the student in his/her academic progress. 2. Psycho-social: To help the mentee as a friend, motivator, coach, counselor, and advisor. Ideally, it is important for mentor to possess many skills some of the most important ones are being supportive, patient, empathetic nature and active listener in order to make a difference in mentees goals and hopes. Also, the mentoring process needs to involve the mentor and mentee to work together to reach specific goals and provide each other with sufficient feedback for the same. The mentee receives support, reassurance and discipline thus, helping to build individual mentees self-confidence, self-esteem and social skills. The mentee also receives academic help as it provides guidance and assistance to set academic targets. Academic target is a bench mark set by the mentee to achieve optimum performance in their academic record. Thus the mentoring programme contributes to the holistic development of the students which in turn contributes to the upliftment and recognition of the college. Yearly mentor programme / calendar At the Commencement of the academic year orientation programme is held wherein importance of mentoring is held. Subsequently in each of the semesters two mentor –mentee meets are held. The board aspects of this meetings are discussed in the above paragraph. To conclude this act as support system and with the appointment of the two counselors by the government it has strengthen the system.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The students' and sports council of college are elected in accordance with the rules and guidelines of Goa University. The college conducts elections in the month of July and the newly elected council undertakes its responsibilities after the inauguration of students council every year. This year the election process started on August 21st and the council inauguration took place on August 27th 2019. The aims objectives of the college students' and sports council are (a) To promote mutual contact, a democratic outlook and a spirit of oneness among the students. (b) To promote the social, cultural and intellectual development of the students of the college. (c) To promote consciousness among the students of the events taking place around them with a view to better equipping them as responsible and educated citizens and to build up a healthy students' movement. (d) To promote among the students, sense of service to the people and duty towards the state. (e) To promote harmonious relations among all sections of the college community, and inculcate scientific temper amongst the student community. (f) To meet, discuss and make suggestions to the college authorities on matters concerning common interest of the students. (g) To create awareness about eco-conservation and environment. The functions of college student's council are (a) Organise Literary, Social Cultural functions i.e., organising debates, lectures, seminars, study circles, essay competitions, dramatic contests, college entertainments, publications of magazines, bulletins of wall newspapers, and such other functions. (b) Social

Service Functions leading to making students better citizens by carrying out social relief-programmes in a flood or drought or any other natural calamity, organising blood donation camps, organising and running co-operatives etc. and such related functions. (c) To help weaker sections of the student Community by organising book banks, poor students fund to provide lump sum grant or scholarships. This also entails collection of funds from outside sources to have more resources for the purpose. (d) To assist, supervise various Art, Cultural, Literary, Social Outreach, Life Skills, Sports and Healthy lifestyle Clubs governed by students. Chowgule College students and sports council organise a variety of events, both at the Intra-college as well as the inter-collegiate level. The events for the students of the college are Literary Festival, Social Outreach festival, Art, culture and Music Festival, Voice of Chowgules, Chowrang (College annual gathering), Cultural day, Fun Week, Teachers Day, Tiger Sports Fiesta, Fitness test, Body evaluation test, Walkathon, Marathon, Plogging, Campus Run and Tower Run. The inter-collegiate festivals are Tathastu and Tiger Olympics. Chairman and/or General Secretary are nominated as members of college Gender Champion committee, Internal Complaint Committee, College Anti Ragging and Disciplinary Committee and College Extracurricular Activity Committee. Apart from the above the general member body of the Students Council are active as General Secretaries in various Clubs (Sports and Cultural). This is an outcome of the decentralization and Non-evaluative Credit policy as administered in the college. The positive outcome of the above is seen in the robust all-round development in all the students as independent decision-making is not only relegated to a handful of students, but is the privilege of a larger student body.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

Alumni play a significant role. The alumni act as ambassadors to brand the college. Alumni have been actively involved in giving academic feedbacks as members of Board of Studies of the autonomous college, supporting students financially, voluntary activities as resource persons for workshops and guest lectures. During the last academic year, the department of Computer Science, Psychology, Sociology and Botany invited their ex-students as resource persons to deliver guest lectures / to talk on career guidance. Alumni also shared their experiences to enhance employability skills of students and also develop academia-industry linkages. The College has a link on our college website where alumni register. The college has an Alumni Newsletter named Alumni Connect has been initiated to help to strengthen the connection that alumni have to their institution. Photographs of the activities and archive photos are also posted on this link. Alumni Association has been registered and there have been proper by-laws formulated for smooth functioning of the alumni chapter.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

a. **Social Credits:** During the academic year 2019-20, one of the initiatives undertaken was introduction of "social credit" under the non-evaluative unit of the curriculum. The Objective of this initiative was to make students aware and sensitive to social and environmental issues at the local level. Under these Non -evaluative credits, every student to earn 2 credits (60 hours) as social credits. To accommodate these in the time table, the post lunch period of every Tuesday is reserved for the students to take up some initiative. Such Credits could be earned by a student for taking up an activity on campus or off campus. The activities could be covered under the banner of NSS, NCC or under those designed by a department. Further, it was also undertaken by collaborating with external agencies i.e. Kamfar environmental solutions, Dilasha Palliative Care Centre (Ponda), Provedria (Margao). The prominent activities under the social credit initiatives were Colva Beach Cleaning drive, making of cloth and paper bags, Imparting of skills in the children of the marginalised local community through activities, campus cleaning , Participation in awareness drives , etc. Some of the issues and challenges faced were difficulty in Coordination, Awareness and enthusiasm amongst the students and creation of spectrum of activities by the college.

b. **Multiple use of E Learning for teaching learning** The college has been at the forefront of using technology in teaching -learning and evaluation. Apart from the college adopting e learning platforms : CLAAP (MOODLE) and Google classroom by all the faculty, the faculty deans and departments in collaboration with the Centre for teaching -Learning, organised regular in-house training and interactive sessions for the college faculty. The objective was to upgrade E-content and OER, Online Transaction - The New Normal, Blended Learning - Boosting Student Engagement, Teaching Methodologies and E-assessment, Multimedia Editing S/W, E-portfolio method etc The focus has been Transitioning to online Instruction (from face to face classroom): towards creating Learner- Centric Environment. The college was able to successfully conduct online classes and also semester End Examination and continuous assessment .

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	All the departments conduct meetings of their respective Board of Studies. Stress is laid in reviewing and upgrading the prescribed courses, keeping in mind the current day requirements. As the BOS is composed of members from varying sections, the inputs provided are highly valuable. During this academic year, all The departments adopted LOCF (learning Outcome based Curriculum Framework) as proposed by the University Grant Commission. All the academic

departments streamlined the syllabus, in accordance with the different methods of teaching-learning-evaluation. As a first step, mapping of Course Outcomes and Programme Outcomes has been initiated.

Teaching and Learning

There is a constant effort to encourage faculty members to employ multiple methods of teaching learning. Accordingly, workshops and hands on training programmes were organised. Portfolio method, Field-based learning Project based learning and Research Based Pedagogy teaching were few new methods adopted by the faculty.

Examination and Evaluation

In the examination system adopted by the college, each individual course teacher enjoys the freedom to adopt any of the methods of evaluating the respective students from amongst: 1. Continuous Assessment (C.A.) only 2. Continuous Assessment with Mid-Term Test and a Sem End Examination (SEE) 3. Continuous Assessment and Sem End Examination 4. Continuous Assessment and submission of a portfolio. The entire process though is monitored by the examination cell headed by the Controller of Examination (COE), which prepares a schedule and conducts the SEE. The Choice of mode for continuous assessment is exercised by individual teachers, who notify the schedule and the mode of assessment to their respective students in advance. The question papers that are set for the SEE are regulated and checked by the examination Cell. Care is taken, on instructions from the cell to provide equal weightage to every module /unit of the prescribed syllabus in a course and a declaration to that effect i.e. invited from the concerned teacher. From two of the manuscripts provided by a teacher one is chosen at random for an examination. As an innovation an opportunity of a retake of the examination is made available to unsuccessful students within a month from the declaration of results of the regular examination.

Research and Development

There is a constant perseverance to augment and promote research amongst faculty members and students. During this academic year, the research committee and IQAC undertook multiple initiatives to further promotion of

research in the institution. Workshops and seminars were conducted on 'Funding bodies for availing research grants', 'Research Data management - ORCID registration etc. Various research related documents and research policies were re formulated in accordance to the UGC guidelines .An Ethical Policy was drafted and committee was formulated to process and approve all research project proposal and to ensure protocols of research ethics are followed by the faculty and students.

The bins were labelled to enable waste segregation on the campus. The bins were labelled for segregation of food waste, plastic, tetra packs, paper, leaf litter and metal.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

BEST PRACTICE I: 1. Title of the Practice :TECHNOLOGY INTEGRATED LEARNING 2. Objectives of the Practice: • To make the students self-learners • To shift from teacher centric to student centric through various teaching methodologies • To incorporate Web based teaching tools in the teaching-learning and evaluation process. 3. The Context: As there is a need to shift from theoretical based learning to applied knowledge the shift in teaching-learning process is needed that will enable students to face real life problems to ensure the holistic development of students. There was an urgent need for

transition into online modes of teaching, learning, and assessment due to pandemic situation. 4. The Practice: • Learning Management System (LMS) have been used in the Institution since 2010 wherein MOODLE is a mandatory ICT tool widely used. • Faculty create course page on the LMS (Google Classroom/MOODLE) wherein Course details and Schedule, List of Mandatory and Supplementary references, Class policies, Assessment schemes, etc are made available • Lecture notes, research articles, videos, web links are made available to students that has helped the students to take the leap from a defined text book content to research-based learning. • ICT enabled Teaching-Learning Process with use of LCD projectors is used regularly for conducting classes, practical sessions, seminars, workshops. • Institution has a Centre for Teaching-learning with audio visual facility comprising of smart board being used by many faculties. • Video Recording Software's were used prepare videos to be made available to students via LMS. • For face-to-face interaction, Google meet and its various extensions like meet attendance and full screen shot were used. The hardware tools like stylus pen, graphic tablet, HD camera, lapel mike was used by the faculty in self-learning mode to make the e-learning effective. 5.

Evidence of Success: • Along with faculty, student's adaptability to technology and new modes of learning brought them in par with global learning experience.

• The institution now has a vast repository of offline videos. In order to maintain quality and standards, the Centre for Teaching Learning (CTL) of the institution has prepared a handbook to help Faculty that contains guidelines/formats to display courses in the LMS and tips on effective design of slides. •

The Internal Quality Assurance Cell (IQAC) of the institution has prepared two Handbooks on Teaching-Learning (TL) Methods and Assessment Handbook. 6.

Problems Encountered and Resources Required: The Faculty need to be trained more on the various options that are available for teaching, learning as well as evaluation in an online/web-based environment. One drawback of the practice was the inability to conduct practical as far as the science stream is concerned. Another major setback is not being able to ensure the authenticity of student responses when evaluations are strictly online. Internet

Connectivity issues have still remained a point of concern. BEST PRACTICE II 1.

Title of the Practice: NON EVALUATIVE CREDITS FOR EXTRACURRICULAR ACTIVITIES THROUGH CHOWGULE COLLEGE STUDENT CLUB SYSTEM 2. OBJECTIVES OF THE PRACTICE: i.

To set and maintain appropriate standards for conduct of extracurricular activities. ii. To maintain these standards by following statutory requirements, established best practices and guidance and to review and improve these practices on a continuing basis. iii. To ensure that all students and faculty members involved in extracurricular activities are informed of these standards by effective training, communication and supervision. iv. To ensure extracurricular activity administrating responsibilities are properly assigned and discharge them with reasonable care. v. To encourage the participation of students in extracurricular activities and the promotion of effective joint efforts between students' administrative bodies and faculty consultation in extracurricular activity matters, and to see that suitable arrangements exist within the college to further such joint consultation. vi. To abide by the college extracurricular policy and imply the same while collaborating with other institutions, organisation, agencies 3. The Context: The challenging

issues that were persisting prior to implement this practice were • Only options available to students are NSS, NCC and Sports. • No definite annual calendar of activities. • No systematic budget planning and administrative procedures. • Lesser involvement of student and faculties in extracurricular activities. • Overlapping of academic and extracurricular activities.

Challenging issues post implementation of this practice • Formulation of policy covering a massive set of activities involving a large number of students and faculties in administrative and supervising work are pertaining to the activities. • convincing student administrative bodies to follow a proper guideline in planning, proposing and administrating activities as per the

policy 4. The Practice: The extracurricular activities are divided in four major fractions, NSS, NCC, Sports and Other Extracurricular activities. NSS, NCC and Sports has a pre-defined curriculum and is governed by NSS programme officer or NCC officer as per the directives of respective central and state agencies. Sports is managed by Department of Physical Education and Sports Management and is in accordance with the Inter Collegiate programme offered by Goa University. The group of other extracurricular activities are further divided in to five sub groups. These sub groups are Healthy Lifestyle Activities, Literary Activities, Social Outreach Activities, Art and Cultural Activities and Life Skill activities. These activities are managed by Student initiated and governed clubs under the supervision of faculty members. Clubs, active in similar functional area, are grouped together. Each group of clubs is supervised by a faculty adviser. Each club is under a supervision of a faculty member. As of now there are 62 affiliated club. The entire student club logistic management system is administered by College Club management board comprising of students. The college extracurricular activity committee governs the entire programme as per the Extracurricular activity policy. There is a provision of two hours per week in the college time table for club members to pursue the activity of their choice.

5. Evidence of Success: The students were empowered to manage their respective activity through formation of club in the functional area and from 4 clubs in the initial year today there are 62 different clubs. The total number of students enrolled for these clubs have increased from 68 in the year 2010-2011 to 1236 in 2019-2020. Implementation of non-evaluative credits in extracurricular activities from academic year 2015-16 and introducing social credits as an additional component from 2020-21. The college academic council has formulated and passed an ordinance pertaining to allotment of 6 non evaluative credits in extracurricular activities in 2015 and formulating a policy of introducing 4 credits in other extracurricular activity and 2 social credits as compulsory from academic year 2021 -22.

6. Problems Encountered and Resources Required:

- Setting up of an office of students' affairs for handling registration and day to day monitoring of the activities.
- Training students to administrate activities.
- Students submitting data in the handwritten format instead of the prescribed e-format
- Need of a specific portal for Non-Evaluative Credits on college website

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Transfer of Credits: To provide a framework for promoting and facilitating the Inter-university transfer of credits and mobility of students across different Universities of India and abroad. The student is required to take up courses in UG/ PG programme for one semester or one full academic year of Institutions with which the college has MOU. The credit earned at the host Institution will be transferred to the regular programme of the college on satisfying following conditions:

- a. Students taking admission for different courses at host Institutions should ensure that these courses are corresponding courses of those being floated at home institution and are approved by respective Board of Studies (BOS) of the home Institution.
- b. The credits earned by the students should comprise of the same rigour as credits earned in home institution.
- c. The credits earned by students from Universities that have the credit system in place, a course work requiring a minimum of 15 contact hours shall be considered as equivalent to 1 credit of the University for Undergraduate and

Post Graduate programmes. d. The grade card issued to students at the end of each semester will contain the following: • Course name and the credits for each course registered in the semester/ academic year. • The performance in each subject by the letter grade obtained • The total number of credits earned up to the end of that semester/ academic year. Board of Studies of the College shall be the members for receiving and processing the final request for accepting the transfer of credits. On completion of the course at the host University the student is required to present the original transcripts earned for verification and acceptance to the Board of Studies. The College has Academic exchange collaboration with three Universities abroad. Universities being Kansai University, Osaka Japan, Waseda University, Tokyo, Japan and U. Porto, Portugal. In the academic year 2019- 20, three students from Chowgule College went to University of Porto as exchange students for two semesters. The students were namely Charmaine Pereira (TYBA), Amanda D'Costa (SYBA), Srushti Prabhudessai (SYBA). All three students completed their courses as exchange mobility student's successfully and are eligible for transfer of credits for the respective academic year. On successful completion of their graduation at Chowgule College they can attain upto 40 transferable credits from University of Porto.

8.Future Plans of Actions for Next Academic Year

i. In view of the college promoting the use of web-based LMS like moodle and Google classroom amongst the faculty and students over the past years, a need always remains to train and acclimatise the freshly appointed faculty in adopting this technology in their teaching-learning and evaluation process with the creeping in innovation methods in the usage of these tools, the college intends to conduct workshop /training sessions to keep the faculty abreast with new methods for effective teaching-learning and evaluation. ii. The Board of Studies in every subject will be guided in preparing LOCF document in line with the guidelines set by the UGC. On procuring the approval of the Academic Council, the LOCF will serve to achieve the objectives set by a department in imparting quality education in the subject , keeping in line the vision of the department. iii. The attainment of the Course Outcomes set by a department for each of the course offered in its programme will be implemented in a phased manner with the course being offered at first year level to be set as the target.
