Frequently Asked Questions about Internships

Q. Will I be getting training from the employer where I do my internship?

A. No. The employer is not expected to train you for your internship. In most of the cases the employer wants you to do some of the tasks which does not require specific technical skills. However the employer will make sure that some basic help and guidance would be provided if you are unable to perform a particular task.

Q. Will I get paid for the internship?

A. This depends on the employer. Some employers pay a stipend at the end of the internship and will mention this to you before you start an internship, whereas others may only offer you an unpaid internship.

Q. Can I take a day off if I have something important, like a family function in the middle of an internship?

A. An intern must note that the internship experience designed at Chowgule College is for a minimum of 120 hours/ equivalent to 1 month or less. Since the duration is small we advise you to plan your internship in such a way whereby you are available without any break to offer your services to the organization. (*Except in case of a genuine emergency*)

Q. Can I start an internship without informing the college/ my department?

A. No. You will not be granted the internship credits

Q. I am doing a part-time job, can this be considered an internship?

A. Yes. Provided you follow the internship Application/Registration procedure mentioned above.

Q. If I leave the internship in the middle due to some reason, will I get credits for the hours completed?

A. You are not advised to keep an internship incomplete. In most cases the internship is considered incomplete and hence no credits are offered. However due to a certain unavoidable reason, you had to do so then it is up to the employer to offer you a letter of internship mentioning the hours you worked at the organization. Once you procure the internship letter from the employer you could be awarded the credits.

Q. We have a family business; can I complete my internship there?

A. No. The college does not consider working in a family business as an internship. Please understand the whole idea of doing an internship is to report to a person who will not be biased towards you and thus in the process you would be challenged to perform certain tasks and deliver during the course of your internship. A family environment can easily violate this prerequisite.

Ref: Communication No. F.8/1088 dated 5th February, 2021

Respected Sir,

In response to your communication under reference in respect of the matter under subject, first of all we are highly obliged and must thank you and your Institution for placing under our guidance such a wonderful girl student to complete her college internship at our organization for a period in terms of hours viz. 120 hours. The girl student Miss Kimberley Veleska Carvalho, Roll No. AU180018 studying TYBA, Geography is one of the best students really seen and heard of nowadays. She looks innocent but is substantially matured enough to learn and understand and is curious to know new things; very calm and composed, reliable, one can keep faith on. She is very punctual and have respect for elders and have cordial relation with the people around. She has observed and could learn the different aspects as to how a library should be run, what records have to be kept e.g. Accession Registrar in which the books purchased, loaned, donated are to be entered, the newspapers and periodicals register, issue registers, viz. general, textbook issue and magazines issue registers, the information issue register, the visitors book and those related to the dead stock, consumable materials register, income and expenditure registrar, audit reports, classification and also cataloguing, etc.. She is explained the Five laws of Library Science enunciated by Dr. S.R. Swaminathan, Founder of Library Science. She has grasped that the Library is for use, has to be accessible to the readers and above all is a growing organism. She has been an asset to our Granthalaya having worked hard with full sincerity and commitment to the assigned task voluntarily taking interest with no prompting required.

We would have liked such a girl like Miss Kimberly or Miss Kimberly herself to serve with us but for the constraints of the posts viz. the Library Staff limiting to two in number, one Librarian and the other Library Attendant.

We pray to God to honor her with the deserved glory for her endurance and perseverance against odds realizing her family history.

To make a long story short, we must say her approach to the Internship was not casual but was with great seriousness and with a positive approach smilingly completed not less than the stipulated 120 hours of the internship very successfully.

With Thanks,

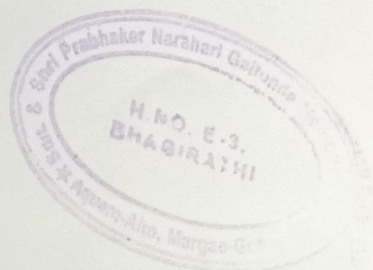

Yours Sincerely
