Target Market

The flesh and excitement of impending nuptials can be intoxicating. It can also be overwhelming. Therefore, we primarily market our services to the people who need them most brides and grooms. In 2019, 4000 marriages took place in the Mumbai.

This marriage rate is expected to remain at the same level in the near future. In the Mumbai, where Forever Bond Wedding Consultants plans to operate their business, uncountable number of marriages are registered each year, which creates a sizable market potential for this line of business.

Another customer segment is represented by the numerous family members and guests attending weddings, anniversaries, and similar events. This segment requires event preparation services like gift ideas, etiquette tips, etc.

Besides the wedding arrangements, which Forever Bond Wedding Consultants believe to be their major client assignments, other events the company will provide services to include corporate retreats, etiquette trainings etc. This customer segment is estimated to have the annual volume of 6000 orders in Mumbai.

WORKSHOP ON INCLUSIVENESS AND EQUALITY OF PERSONS WITH DISABILITY

SOUTH GOA
6th March 2023

Parvatibai Chowgule College of Arts & Science, Cupangale Society, Margao - Goa
Time: (09.30 am to 04:00 pm)

CONCEPT NOTE

Persons with disabilities do not always enjoy rights on an equal basis with others and are sidelined in the rights debate. They are often at risk of multiple discrimination and violence. There are problems with people with disabilities' access to the general education system, to be employed, to live independently in the community and to move freely. The programme identifies specific policies and actions to improve the equality of and access to rights by persons with disabilities over the coming years. The main aim of the programme is awareness raising. Raising public awareness on disability is an integral part of the fight against prejudice and negative attitudes towards persons with disabilities. Both education and awareness raising are powerful tools to change mindsets, combat discrimination and ensure equal opportunities for all. The programme highlights the role of all relevant stakeholders in raising awareness on disability.

AIMS OF PROJECT

1. Creation of awareness amongst the persons with disabilities about their rights under existing laws, policies, government schemes, and entitlements.
2. Dissemination of information amongst the officials of the government and staff of educational institutions, and general public about the rights protecting persons with disabilities and measures to be adopted in this regard with particular reference to the RPwD Act.
3. Creation of awareness amongst the government functionaries and those of education institutions about reservation of seats in employment of the State and in educational institutions funded by the State and the specific educational needs of persons with disabilities.
4. Improvement of participation and learning experiences of persons with disabilities in educational institutions.
5. Achievement of economic and social mobility, inclusion, and equality in tune with the National Education Policy (NEP) 2020.
