REPORT

Title:	Alumni Talk	
Date and year:	11 th December 2020.	Timing: From: 11am To: 12 noon
Venue:	Department of Geography	
Resource person/s:	Mr. Rosario D'Costa, Director Operational Integrity and Investigations Surveillance, Marina Bay, Singapore,	
Organising Committee	Department of Geography	
No. of Participants	67	
Objective:	Motivational Talk by Sharing Experiences of Successful Alumni	
Summary of the proceedings	<p>Mr. Rosario expressed that the love towards study of places and relationship between environment and people encouraged him to choose geography as his career and influenced him to enhance his skills in his professional career. His travel experience has helped him to gather lot of on field experiences in culture, food, climate, and people. Good study skills can increase confidence, competence, and self-esteem. He suggested students to explore the methodology of carrying out data collection, research on cultural, social geography in depths and acquire knowledge on report writing to gain mastery in geography. He has advised students to diversify one to have better career opportunities such as cartography; students can join Town Planning or Remote Sensing or Urban Regional Planning, Project Scientists, National Geospatial Intelligence Agency. A donation of RS.50000/- was given by Mr. Rosario D 'Costa towards AGES (association of geography Ex students). He concluded by saying —when you get job opportunities the student should know to grab them, and experience gained in the work may lead you to better prospects. Mrs. Bibi Aisha Shaik was the organizing Secretary of the event. The vote of thanks was proposed by Faculty Mr. Venkantesh Prabhugaonkar.</p>

REPORT

Title:	"TAILOR YOUR CAREER IN HARMONY WITH YOUR BODY"	
Date and year:	22nd February, 2021.	Timing: From: 10am To: 12 noon
Venue:	Lower Auditorium	
Resource person/s:	Dr. Sneha Bhagwat Ayurvedic Doctor, Transformational Speaker Founder of Oorja Wellness Centre	
Organising Committee	Department of Geography	
No. of Participants	46	
Objective:	The focus of the talk was to guide the students in choosing the career, balancing professional and personal life based on the nature of their body and mind.	
Summary of the proceedings	Dr. Sneha Bhagwat talked about how important it is to understand the nature of one's body and mind based on Ayurveda. Understanding one's own Prakruti helps an individual in choosing their career along with balancing their professional and personal life efficiently. She also mentioned positive and negative characteristics of each prakruti which indeed helped our students as well as our teachers to understand each other's behaviour and this will definitely help in the growth of our department, students in achieving their goals.

**PARVATIBAI CHOWGULE COLLEGE OF ARTS & SCIENCE
(AUTONOMOUS) - GOGOL, MARGAO-GOA
DEPARTMENT OF GEOLOGY**

<u>REPORT -</u>	
Title:	Avenues for geologists in India, an interaction session with former faculty and alumni Mr. Akshay kelkar
Date and year:	23 rd July 2019
Venue:	Upper Auditorium
Resource person/s:	Mr. Akshay Kelkar
Organising Committee	Club Nebulites, Department of Geology
No. of Participants	52
Objective:	To highlight the various career opportunities available to the students of geology and the preparation required to peruse a career in Geology and also to highlight the various avenues for recruitment of geologist in India
Summary of the proceedings	<p>A Student-expert cum alumni interaction session was organised by the Department of Geology - Parvatibai Chowgule College of Arts and Science Autonomous on 23rd July 2019, to enlighten the budding undergraduate students with the avenues available in the field of Geology. The interaction was between the students and Akshay Kelkar who is currently a Trainee Scientific Officer at the Atomic Mineral Division in Hyderabad.</p> <p>All students were very excited to meet Sir Akshay and grab this unique opportunity to enhance their awareness in the fields available after graduation. The third year Geology students of the Bachelors course were more enthusiastic as they experienced great memories under Sir Akshay's tutelage in the year 2017-2018, when he was the assistant professor in the Geology Department. The event began with Alistair Souza (student of Third Year) introducing the Guest speaker and mentioning his achievements. Later Sir Harish Nadkarni motivated the bright students with a great speech telling us about outlook that we students should have to achieve a successful future.</p> <p>Sir Akshay began his interaction with the experiences he had through his young career. His career is like a rose which has thorns in the beginning and the rose petals at the top. The thorns are the struggles and hard work he had in the beginning of his career and the</p>

	<p>rose petals symbolises the success he has currently achieved by getting an opportunity as a Trainee Scientific Officer at AMD. The success is not complete as he has a long path to follow. This success was achievable all because of his persistence, guidance from the Geology Department Faculty and the support and prayers from his close and dear ones.</p> <p>Sir Akshay mentioned the various universities available in India for the Master's study. This included the State Universities, Central Universities and the reputed Indian Institute of Technology (IIT) and National Institute Technology (NIT). Some of the state universities include the Osmania University, Annamalai University, Ferguson University, Saint Xavier's University and Goa University where he pursued his Master's Degree in Applied Geology. The central universities are Central University of Kerala, Pondicherry University, Central University of Karnataka, Delhi University and Banaras Hindu University which Sir Akshay joined for his PhD. Sir told us about the criteria to join these universities. We received valuable information regarding the JAM Exam which is required to pursue Master's IIT and NIT.</p> <p>As for the fields available to study in the Master's programme, Sir Akshay provided information on Applied Geology, Geoinformatics, Petroleum Geology, Environmental Geology, Marine Science, Climatology and considering the current water crises, the important field of Groundwater and Geophysics which can be used to study the deep portions of the Earth. We were enlightened about the CSIR-UGC NET exam whose certificate has a two year validity for being a Lecturer and a Junior Research Fellow (JRF) after MSc. The certificate for JRF is also allowed after BSc. The students were updated about the recruiters for geologists like the Indian School of Mines, FUGRO, Vedanta etc. for Mining and Geophysical opportunities, SHELL, ONGC for Petroleum Geologists, ISRO, GSI, Central Groundwater Board and DAE-BRNS => AMD are some of the government organisational recruiters. Recruitment in AMD requires clearing the BARC exam and an interview thereafter.</p> <p>The interaction with Sir Akshay was an 'Eye Opener' and made us realise the truth that the future is not a 'cakewalk' and we need to be hardworking and persistent. We gained knowledge about the vast scopes available after graduation and the steps and measures required to achieve the field of our interest. The students are very grateful to the faculty members of the Geology Department for arranging this informative and fruitful session and to Sir Akshay for being so kind in spending his valuable time to enlighten us.</p> <p style="text-align: right;">Report prepared by Bevelio Goes (TyBsc)</p>

DEPARTMENT OF PSYCHOLOGY

Career Talk by Ms. Sangrail Brito Carvalho and Ms. Kimberly Pereira 2019-20

The Department of Psychology, Parvatibai Chowgule College of Arts and Science (Autonomous) has taken up the initiative of starting a series of talks titled “Career Talks” for the students of the department. Owing to the current situation, the talks were held online and Google meet was used as a medium for the same. Speakers working in different fields of psychology deliver a talk to students on their journey and experiences to guide the students on their career paths and introduce them to new opportunities and challenges in the practical world out there. They also help clear the possible confusions and misconceptions the students might have, and help them gain greater clarity for their career plans ahead.

This series kick-started on 28th April 2020 with the first talk delivered by Ms Sangrail Brito Carvalho. She is an alumnus of the college and the department, who is now working in the field of Corporate Psychology as a ‘Training Coordinator’ at KNOLKSKAPE Solutions, Bangalore. The talk was arranged on the online platform of ‘Google Meet’ so all students could join the talk and

DEPARTMENT OF PSYCHOLOGY

interact with the speaker right from their homes. Ms Carvalho began by introducing herself and then introduced the students to the field of Corporate Psychology. She went on to talk about the different careers and branching careers in Corporate Psychology and what each one entails. This was a new career avenue for many students and hence the students shared that the explanation given by the speaker was very enlightening and informative for them. Sangrail then spoke of her journey right from when she finished her undergraduate degree to how she ended up where she is today. She spoke of what she learned along the way and the pros and cons of being in this field. She then addressed all the questions and doubts that the students had about the topic. She also gave the students a few tips, like pursuing different skills and other courses even after having established a career, as continually growing and enhancing yourself in your field of expertise is essential in this competitive world.

The second talk of the series was organised on April 29th 2020. The speaker for this session was Ms. Kimberly Pereira a former student at Parvatibai Chowgule College of Arts and Science, Autonomous. Faculty member, Asst professor Dr. Golda Vas welcomed every one and also introduced the speaker. In her introduction she informed everyone that after completing her bachelors degree at SPCC Ms. Pereira went on to complete her Masters in psychology. She has also completed numerous short-term courses in different fields of psychology. The resource person Miss Pereira, took the students through her life's journey. She spoke about how she was a sensitive person and many people around her exclaimed saying that she was not cut out for studies of psychology and to be a psychologist. However, through many years of self-doubt she finally found her fulfilment as a counsellor at Don Bosco school at Navi Mumbai and presently heads the department. She emphasized that as psychologist one is expected to be a superhuman but that is not quite possible as one tends to have one's limitation. She said the only difference between the counsellor and a client in this regard is that the counsellor has the knowledge of what s/he is going through which is not the same with the client. She focused on many options available

DEPARTMENT OF PSYCHOLOGY

which the students may explore and have a fulfilling career in the field of psychology. After her sharing, the students clarified their doubts with Ms. Pereira. There were around 35 participants including students and faculty members in attendance for this career guidance talk. Asst professor Mr. Aresh Naik proposed the vote of thanks. In all both the talks were very enriching, helpful and enlightening.

Wacky Lit fest

TG LIFE

Pegasus – imagine, create, inspire, the inter-collegiate English literature festival in Goa organized by the students of the department of English, Parvati-bai Chowgule College of Arts and Science, autonomous, concluded its elevenyear of competitions recently. The theme of the two day event was – Untamed - and revolved around all forms of adapted literature. The longest running English Literary Festival in Goa also adapted itself this year by inviting non-literature students to enjoy literature in its most enjoyable form - through healthy competition. The two day programme covered the most intellectual to the wackiest of events testing skills in language, media and literature. The teams

chose their team names from adapted literature as well as their beautiful mascots. The mascots enlivened the college atmosphere - from Hela, Queen of hearts (Alice in wonderland), Cruella de Vil, Medusa, to Jaffar, Wonder woman and Deadpool.

Pegasus Untamed was won by team Von Trapps - Goa University and runners-up were team Swami - Rosary College, Navelim, followed by team Supernatural - VM Salgaocar Institute of International Hospitality Education, team Archies - Dhempe college of Arts & Science, Team Mahabharata-M.E.S College, Vasco, Team Godfather - Don Bosco College, Panaji and team Hobbit-Govt. College, Sanquelim. Queen of Hearts and Hela were the best two cosplayers of the day winning the first and second place respectively.

<u>REPORT OF 'FIELD TRIP FOR FYBSc AND TYBSc</u>	
Title:	Field trip for FYBSc and TYBSc
Date and year:	17 th February 2019
Venue:	Fish landing site, Betul, Goa
Resource person/s:	Local Fishermen
Organising Committee	Ms. Andrea D'Souza Ms. Tessa Vaz Ms. GautamiManakikar
No. of Participants	80
Objective:	To acquaint the students with: 1. Various fishing crafts and gears used by the fishermen 2. Fish species landed at the site.
Summary of the proceedings	<p>FYBSc and TYBSc students visited a fish landing site in Betul, Goa. Faculty members Ms. Andrea D'Souza, Ms. Tessa Vaz and Ms. GautamiManakikar accompanied the students to the field site. The primary goal of the field visit was to aid in the student' understanding of the various crafts and gears used in fishing technologies in the marine fishery sector of Goa. The use of crafts and gears in fishing technology plays very important role and help enhancing the production commercial bases. The success of fishing largely depends on to how and which types of nets are used to capture the fish.</p> <p>A local guide delivered an on-field lecture to the students. He explained the students, the different crafts and gears used to successfully harvest fish resources from the sea. The following important aspects were explained:</p> <ul style="list-style-type: none"> • Type of nets used for fishing: The students were explained about the various types of fishing nets used in Goa; and the commonly used net employed by fishermen operated trawlers.

- Mesh size and its relationship with the fish species caught: The students were shown net samples that indicated different mesh sizes. In addition, information regarding the importance of mesh size specificity to fish species was explained in detail.
- Information on the various aspect of the fishing trawler: The various technologies present on the fishing trawlers was explained. In addition, the entire process of fishing was explained.
- Fish species caught in the area by the fish trawler: The fish species that are locally harvested in Goa were observed by the students. Some of the fish species include:
 - Mackerel
 - Sardines
 - Pomfret
 - Squids
 - King fish
- Advantages and disadvantages of the protocols and procedures used: The guide explained the advantages of using trawlers over traditional methods of fishing. In addition, some of the drawbacks or problems faced by the fishermen were also emphasized.
- Current market scenario: The students were exposed to the current market of the harvested fish viz. In addition to the local consumption, a portion of the fish is exported to other states for consumption.
- Post-harvest catch and loss

Fish preservation protocols used on the trawler: The guide explained the techniques and technologies used by the trawlers to preserve the freshness and quality of the fish.

<u>REPORT OF INDUSTRY ACADEMIA LECTURE SERIES - MANGROVES</u>	
Title:	Industry Academia lecture Series - Mangroves
Date and year:	30 th July 2018
Venue:	Auditorium
Resource person/s:	Lecture Series: Dr.Untawale, Dr.Dhargalkar, Dr.SayeedaWafar Mr. DevanandKavalekar
Organising Committee	<ol style="list-style-type: none"> 1. Dr. Nandkumar Sawant (Chairman DBT Star College Scheme) 2. Dr. Nandini Vaz Fernandes (HOD, Zoology & College coordinator DBT Star College Scheme) 3. Ms. Madhu Balekai 4. Ms. Tessa Vaz 5. Ms. Andrea D'souza 6. Mr. Stephen Dias 7. Ms. GautamiManakikar
No. of Participants	150
Objective:	To organize joint activities in research, training, community outreach, co-curricular and extra - curricular areas and enable students to carry out internships.
Summary of the proceedings	The Department of Zoology of Parvatibai Chowgule college of Arts and Science (Autonomous), in association with 'Mangrove Society of India' (MSI) organized Lecture series on 'Mangrove ecosystem' on 30 th July 2018. The department of Zoology had organized painting and photography competitions on 26 th July to commemorate the 'World mangrove day". As a continuation of the celebration the lecture series were organized on 30 th July 2018.

The chief guest of the function was Dr. Pradeep Sarmokadam, member secretary of Goa State Biodiversity board. The function was held in the auditorium of Chowgule College and was attended by the faculty and students of botany, geography and zoology. Principal Dr. Nandkumar Sawant welcomed the chief guest with memento and flowers and said that we look forward to bring about societal awareness in terms of conservation. Dr. Sarmokadam addressed the faculty and students and said that young students should be venturing into applied biodiversity research, the outcome of which can be used to address the issues faced by our state and nation as a whole. He also appreciated the role of Chowgule College in formulation of 'Biodiversity Heritage site' document for Curtorim panchayat and its role as 'Technical Support group' for the preparation of 'People's Biodiversity register" by team of faculty of Chowgule College.

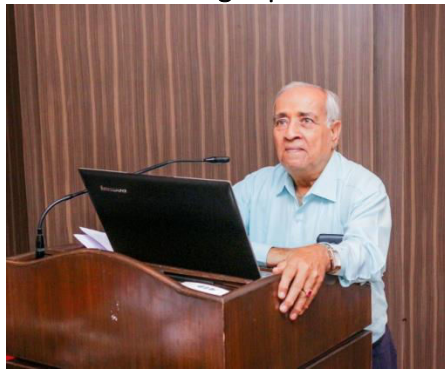

"The speakers lecture series were specially selected to create awareness about the importance of mangroves and the uniqueness of floral and faunal diversity in mangrove ecosystem" said Dr. Nandini Vaz Fernandes, Head of the department of Zoology.

The speakers were scientist/former scientist of National Institute of Oceanography (NIO) Dona Paula and current members of Mangrove society of India. Dr. Untawale, executive secretary of MSI, spoke on "Coastal ecosystem of Goa" where he stressed on the different aspects of the ecology of mangroves and wetlands in Goa. He talked about the species of mangrove plants and their ecological adaptations and the role of these mangroves in protection of the Goan coast.

Dr. V Dhargalkar, joint secretary of MSI spoke on "Mangrove fauna" and described the uniqueness of the micro, meso and mega fauna of the mangrove ecosystem. He explained the relationship of all the plants and animals including humans in the food web of mangrove ecosystem.

Dr. Sayeeda Wafar spoke on "Mangrove productivity and Mr. D Kavlekar scientist at NIO spoke on 'Mangrove bioinformatics'. The MSI also put up exhibits of the mangrove flora, fauna, uses and threats in the 'Mangrove exhibit' gallery held in the quad of Chowgule College. The photographs and paintings done by the zoology students on the theme 'Mangrove fauna' was also exhibited in the gallery.

BIOTECHNOLOGY ALUMNI MEET 2017-18

The Biotechnology Club - BIOCHROME - organized the '4th Biotechnology Alumni Meet' on 2nd January 2018 for which 23 alumni attended and shared their experience with the current students of Biotechnology of our college, providing an insight into Masters programmes and employment details. Most of them have pursued postgraduate degrees in other parts of India and abroad, specializing in Dietics & Nutrition, Forensic Sciences, Food Technology, Medical Biotechnology, Biotechnology and Biochemistry. Additionally, there were attendees who are currently employed in reputed companies such as Biocon, Natural Remedies, Quintiles, Wipro Life Sciences, Aqua Viva and Studymode (all in Bangalore), Alembic Pharmaceuticals, Quintiles, Thyrocare (all in Mumbai), Lupin Biotech (Pune). It was a wonderful experience to hear from the Alumni as they shared the ups and downs of their Biotech journey, contributing to the success of the event through their resourceful interaction. The final Biochrome activity for this academic year was conducted on 16th February which included the participation of students from all batches of Biotechnology to solve a Biotechnology puzzle - a brain storming yet fun experience for them.

DEPARTMENT OF PSYCHOLOGY

Career Talk by Ms. Uchita Raiturkar 2017-18

Ms. Uchita Raiturkar alumni of the Department addressed the students on the 29th of July, 2017 from 11: am- 11:45am. she runs a clinic called Puzzels that caters to children with special needs. Points highlighted during the talk were area of specialization, journey of her career and difficulties faced. various career options available to students of psychology.

New Faculty of the Department

Undergraduate Department of Psychology Postgraduate Department of Psychology

Mr. Aresh Naik is an alumnus of Dhempe College of Arts and Science. He has over 5 years of experience in the aptitude training industry and has trained over 1200 students for various entrance exams for post-graduate studies in India and abroad. After completing his MA in Psychology at St. Xavier's College, he worked for 2 years at Sangath, a premier research NGO based in Goa, where he coordinated a first-of-its-kind 8 year follow up

study on outcomes related to alcohol use/abuse in India. He has co-authored two international publications and is trained in Mindfulness based Active Listening for suicide prevention.

Ms. Aiswarya. M. Babu has joined as the coordinator for the PG course. She has Masters in Psychology from the Indian Institute of Psychology & Research, Bangalore. She has been a meritorious student. In the year 2012, she was a

part of student exchange programme to Waseda University, Japan. She is trained in Life skills programme, Academic Writing, Research skills, and Reiki. She has conducted workshops on study skills & stress management in Bangalore & Mysore, conducted awareness programmes on suicide prevention and mental health awareness.

Celebrating decade of independence!

The department of psychology has been functioning under the department of philosophy since the inception of the college in 1962. In 2008 it finally emerged as an independent year with 3 units being offered to the Third Year students. Immediately in 2009 all 6 units were being offered by the department. Since then the department has grown in leaps and bounds. From 02 students (Third year) in 2008, the department boasts of 47 students in 2017. It is one of the biggest departments in college with a total strength of 140 students. In celebration of the completion of 10 years, the department will be hosting a party clubbed with installation of the alumni association in December 2017.

Psychology Forum 2017-18

The following students have been elected to constitute the psychology forum
Ms. Jenette Barbosa Noronha—President
Ms. Shruti Shetgaonkar - Vice President
Ms. Jumana Khan—Treasurer
Ms. Dashmi Phal Dessai - Secretary
Ms. Sonia Naik—Joint Secretary
Mr. Dhritiman Sharma—Joint Treasurer
Hearty congratulations to all.

Editorial By Mrs. Sobita Kirtani svk004@chowgules.ac.in	MA in Child Psychology & Child Development	Obituary to Mrs. Sudha Joshi
<p>In 2015, Parvatibai Chowgule College attained autonomous status. 2017-18 will see the first batch passing out. Any change is not easy and a change of moving from an affiliated system to an autonomous one has been a massive one for the faculty. It has been an adventurous journey for the students trying to understand the whole new system. The first batch has withstood changes and uncertainties, undergone internships and gathered 180 hours of non-evaluative credits (06). This batch is surely strong and will surpass any hurdles in life. They have set an example for their juniors and are likely to emerge as leaders. With the volume of activities taking place on campus, students of Chowgule College have a host of experiences to gain from. Besides, emphasis of the college on research and analytical skills to be imparted to students has created enthusiastic bunch of students keen on research. The students of department of psychology alone will be presenting 05 papers at international conferences shortly. I wish success to the endeavours of the department and the students. And to our readers, a happy journey through the host of activities of the department!</p>	<p>The Department of Psychology began Mater's Program in Child Psychology & Child Development in July 2016. This program in psychology is driven by its core objective to equip the students with in-depth knowledge and expertise. The syllabi have been specially designed to bridge the gap between education and industry. With major emphasis on skill based courses, the M.A. Program intends to train and equip counsellors who are capable of dealing with any situation pertaining to children. The 80 credits course emphasizes on experiential learning with focus on research, case study method and internship. The course comprises of IV semesters with mix of core and elective papers with a blend of theory and practicals. To gain skills and practical knowledge, the student will be exposed to various field trips, institutions working in the area of Child Development and will have experiential learning through various case studies.</p> <p>Career Prospects</p> <p>This course will help students gain employment as school counselors, work in NGOs, set up own clinic, work in remand homes, counselling centers and child guidance clinics.</p>	<p>On 5th July, Mrs. Sudha Joshi former teacher of economics at the Higher Secondary School of Parvatibai Chowgule College passed away after suffering from a prolonged illness. Mrs. Joshi had joined the institute in 1990 and was a very popular teacher of economics. In 2010 she resigned from the job and moved to Bangalore where she worked for a while. Her interest in Psychology drew her closer to the field and she pursued the same as a career, until she could no more as a result of her illness. Her death is mourned by all her students and colleagues. May her soul rest in peace.</p> <p>Need Based Modules</p> <p>The PG Dept of Psychology conducts Need Based Modules (NBM) for students. These are specially designed to empower students in various areas as per their expressed need. The modules have practical oriented activities and some theory. The department has been conducting NBMs on self-confidence, anger management and parapsychology. It is open to anyone, from any stream. It is spread over a two week period with 4 classes of one hour each. The cost of one NBM is Rs 500/ per participant. Classes are held at the college itself. On successful completion the participant is awarded a certificate. Interested students can contact Ms. Rochelle Pereira, in-charge of NBM.</p>

VOL IX	PAGE 3	ISSUE I
Fresher's Party By Ms. Roma Prabhudesai T.Y.B.A.	Workshop Contd. From pg 1	Career Talk by Uchita Raiturkar Contd. From pg 1
<p>On the 1st of July, the department of psychology organised a fresher's party for its fresh batch of first year students. The party was attended by the department's head, along with the other members of the faculty. It comprised of fun ,cultural programs - dances, songs and skits that was put together by the students of the tired year and second year. Later, the freshers played a lot of games, including the very fun 'pictionary' which found the teachers joining in too. After all the laughs there was a pinning ceremony where the third years and second years pinned the departmental logos on the first years, followed by snacks and drinks. The PG department too hosted a fresher's party for part I students on 14th July, 2017.</p>	<p>methods of primary data collection namely, questionnaire, interview and focus-group techniques. The session on questionnaire method was engaged by Mrs. Sobita Kirtani and the Interview method was conducted by Mr. Aresh Naik, both being faculty of the department of psychology. The Focus-group technique was engaged by Ms. Urvita Bhatia. Ms. Bhatia is currently working in Sangath Centre. 17 students attended the workshop and acquired skills that will benefit them in the research projects that they undertake. Response of the students has been very encouraging. The department wishes all the students for success in the field.</p>	<p>for the students in choosing and moving on towards a particular career. Ms. Leann Mesquita, a second year student of the department introduced the guest speaker to the audience. Ms. Uchita Raiturkar, in her speech, mentioned her journey towards her career, including the positives, difficulties and challenges she faced and most importantly her experiences as a student volunteer. She advised the students to actively volunteer in various social groups and NGOs to gain hands-on experience. She shared her own experiences while volunteering in institutes such as the Indian Montessori Centre in Bangalore, Sri Lanka Volunteers (SLV) in Colombo, Sri Lanka, Bubbles Centre for Autism in Bangalore and SE-THU in Panaji. She made an appeal to the students to take the field of psychology seriously and to carve a career for oneself by trying to explore and understand the area that one is passionate about. The talk ended with, Ms. Jenifa, third year student of the department, proposing the vote of thanks to Ms. Raiturkar. The department was glad to have such a renowned and experienced personality and definitely intends to conduct such activities whenever possible.</p>

Circular

Sub: Seeking Resource persons to mentor students in clearing Net Exam

The Directorate of Higher Education in order to prepare a database of candidates aspiring to clear NET/SET exam had circulated a questionnaire through all the Colleges/University/Government Institutions in the State. The Directorate has received an overwhelming response in this regard wherein over 1000 applications were received from the candidates who have completed Post Graduation and from those in the Final year of their Post Graduation, out of which 275 forms have been received from the reserved categories.

Accordingly, the Government is scheduling a training programme (subject-wise) to mentor and impart training to candidates in clearing the NET/SET examination.

Training programme is most likely to be scheduled on weekends from mid March, 2018 and to the end of June 2018. The training centres will be at the district/taluka level and may be covered in batches. The training centres and specialization subjects will be decided based on the number of candidates for a particular subject and also on the availability of the resource persons.

The Directorate proposes to empanel experts as resource person for training for the NET/SET examination. Those interested and willing to share their expertise in conducting training may email to **dir-dhe.goa@nic.in** with their CV, subject of specialization and preferred location (mention the college/institution name) of training by **20th Feb 2018**.

TA/DA and honorarium will be paid accordingly.

Title:	Trip to Fish Processing Industry for T.Y.B.Sc students
Date and year:	09/09/2017
Venue:	Fish packaging unit 'Quality Exports' at Cuncolim, Goa
No. of Participants	55
Objective:	To acquaint the students with the process of fish preservation and packaging.
Summary of the proceedings	<p>The students were shown various processes involved in fish processing and preservation like preparation of raw materials needed for processing and packaging of the final product in a sanitary and hygienic environment. Quality Exporters processes and exports fish. Quality Exports uses different types of refrigerators and containers to store and process fish at different temperatures. The main purpose of the field trip was to expose the students to the various techniques of fish preservation, processing and export. Quality Exports is a fish processing plant owned and managed by Mr. Ibrahim Maulana. It exports a wide variety of fish such as mackerel, ribbon fish, kingfish, shrimp, cuttle fish, squids and other types of sea food to countries such as China and other parts of South East Asia.</p> <p>An employee of the company explained that the first step in fish processing is to preserve the fish as soon as possible in order to maintain its nutritional value, consumption quality and shelf life.</p> <p>Quality Exports uses the refrigeration and freezing technique of preserving fish. Students were acquainted with the area where the fish is first washed, segregated into cartons by weight and then stored in freezers. Several employees organized into assembly lines carry out this process in a hygienic manner.</p> <p>In order to prevent the fish from losing its freshness, it is stored in freezers having temperatures set to -180C and -400C. Students were also given a view of the same.</p> <p>Employees wearing insulated clothing load the boxes of frozen fish into</p>

refrigerated shipping containers which are later transported to different countries by sea. Students observed the loading process.

Quality Exports possesses an in-house laboratory which is used for conducting microbiological assessments of frozen seafood.

Title:	State level Workshop: Butterfly Identification
Date and year:	25/09/2017
Venue:	Parvatibai Chowgule College of Arts & Science
Resource person/s:	Mr. Parag Ragnekar, Mr. Yashodan Heblekar and Mr. Dheeraj Halali
No. of Participants	90
Objective:	To emphasize the importance, conservation and evolutionary significance of butterfly population.
Summary of the proceedings	<p>Mr. Parag spoke on 'Understanding Butterflies'. Mr. Yashodan enlightened the students on conservation of butterflies. Mr. Dheeraj Halali spoke about the 'Evolutionary significance of Butterfly Color Patterns- Anti Predatory Strategies'.</p> <p>There are many reasons why butterflies and moths are important, both in their own right but also as quality of life indicators. Butterflies and moths are intrinsically valuable and are worthy of conservation in their own right. Butterflies and moths are part of Life on Earth and an important component of its rich biodiversity. They have been around for at least 50 million years and probably first evolved some 150 million years ago. Butterflies and moths are a highly diverse group comprising over 250,000 species and make up around one quarter of all named species. Butterflies are flagship species for conservation in general, and in particular for invertebrates.</p> <p>Educational value</p> <ul style="list-style-type: none"> • Butterflies and moths have fascinating life-cycles that are used in many countries to teach children about the natural world. The transformation from egg to caterpillar to chrysalis is one of the wonders of nature. • Other educational aspects include the intricate wing patterns and iridescence, and as examples of insect migration. <p>Scientific value</p> <ul style="list-style-type: none"> • Butterflies (and moths to a lesser extent) are an extremely important group of 'model' organisms used, for centuries, to

	<p>investigate many areas of biological research, including such diverse fields as navigation, pest control, embryology, mimicry, evolution, genetics, population dynamics and biodiversity conservation.</p> <ul style="list-style-type: none"> • The long history and popularity of butterfly study have provided a unique data resource on an insect group unmatched in geographical scale and timescale anywhere in the world. This has proved extremely important for scientific research on climate change. • Butterflies and moths are indicators of a healthy environment and healthy ecosystems. • They indicate a wide range of other invertebrates, which comprise over two-thirds of all species. • Areas rich in butterflies and moths are rich in other invertebrates. These collectively provide a wide range of environmental benefits, including pollination and natural pest control. • Moths and butterflies are an important element of the food chain and are prey for birds, bats and other insectivorous animals (for example, in Britain and Ireland, Blue Tits eat an estimated 50 billion moth caterpillars each year). • Butterflies and moths support a range of other predators and parasites, many of which are specific to individual species, or groups of species. • Butterflies have been widely used by ecologists as model organisms to study the impact of habitat loss and fragmentation, and climate change.

BIOTECHNOLOGY ALUMNI MEET 2016-17

The annual third biotechnology alumni meet was conducted on 3rd September 2016 in the lower auditorium of the college. The alumni of batches 2011, 2012, 2013, 2014 and 2015 participated in this meet. The event commenced with presentation by an S.Y.B.Sc. student, of the report of biochrome activities conducted in the academic year 2015-16. The presentation included the activities planned for the current academic year 2016-17. The presentation was followed by a short cultural entertainment programme by the students of F.Y., S.Y & T.Y.B.Sc. The students beautifully arranged a game session that

involved the interaction of alumni with each other.

The alumni shared their experiences, advice and provided some insight into careers for the current students with regard to their job profiles and nature of work in their respective chosen fields. While some outlined the scope in biotechnological industries in Goa or outside, others advised students to pursue specialization courses that interested them. Most of the alumni unanimously quoted that “It is important to love what you do” and hence it is important to find what one loved doing the most even if it was out of the scope of biotechnology. The recent batches that graduated could provide useful information on the M.Sc. courses that they are currently pursuing, the modules studied and general information about the colleges/universities that they are enrolled in or those that they researched on while going through the application processes for themselves.

The experience was enjoyable for the students as well as the alumni who took part in the event. The students finally concluded the event with cake cutting celebrations for the teacher’s, the surprise element for teacher’s day while also serving the snacks they prepared by themselves for the alumni. The student interacted with alumni informally after the whole event while taking pictures at the ‘selfie booth’ prepared for the almost indispensable part of every programme -- ‘The photo session’.

Figure 3 : The alumni of batches 2011, 2012, 2013, 2014 & 2015 at the annual third biotechnology alumni meet held on 3rd September 2016.

DEPARTMENT OF SOCIOLOGY

5.1.4 - 2016-17

Harsh Kamat –Report

The department of Sociology under Autonomy has introduced a course 'Globalisation and New Media (DST)', it's a course with practical elements. Here the students have to prepare digital stories and documentaries. The digital stories are made using still images which are photographs and documentary film is made using video of motion picture.

To help the student with understating photography and have basic knowledge of its allied skills, a talk was organized. The Guest Speaker invited was Mr. Harsh Kamat who is a Professional Photographer and who has pursued his photography training from Lisbon University in Portugal. This session was held on 27th July 2017 at 1.00 p.m. to 2.00 p.m. Mr. Kamat demonstrated various skills of handling camera, positioning the camera to manage light well, how to get right angle and frame to produced attractive photographs. He also demonstrated how to edit photographs to get desired feel. The students were seen responding well and also feedback taken from the studens showed positive outcome. Around 15 students out of 18 attended this session.

DEPARTMENT OF PSYCHOLOGY

Career Talk by Ms. Vaishnavi Hegde 2016-17

Ms. Vaishnavi Hedge, an established counselor was kind to accept the invite as a guest speaker for the career talk organised by the department of psychology. She shared her journey of being a counselor and life experiences with the students and threw light on how she realized that counselling was her true calling. After the talk ended she engaged with the students of the department to address their queries and clear any doubts. In all it was an enlightening talk by Ms. Vaishnavi Hegde.

Title:	Field trip for TYBSc students
Date and year:	29/07/2016
Venue:	Centre for Antarctica Ocean Research (NCAOR), Goa
Resource person/s:	Departmental Faculty
No. of Participants	25
Objective:	To acquaint the students to the various resources of Antarctica
Summary of the proceedings	<p>The students attended lecture series and interactive session organized by NCAOR based on their research. Their main objectives were to assess the Antarctic climate change and its linkages during the past 2000 years using ice core records.</p> <p>To understand the biogeochemical cycling within the supraglacial environments.</p> <p>To study the dynamics and the rate of change of selected Himalayan glaciers.</p> <p>To study the glaciological processes in selected glaciers of Svalbard, Arctic.</p> <p>NCAOR works towards understanding the modern biochemical and air to snow exchange process and its past changes vis-a vis the climate system and its variability. The proxy parameters used include temporal variability of stable water isotopes, trace material chemistry. The proxy parameters used include temporal variability, ionic composition, dust particulates, and microbial components that are reliable indicators of environmental change.</p>
