Chairperson, General Secretary, Sports Council Report

The student's sports council has always been a very integral part of Chowgule College's sporting and fitness aspect. For this purpose, individually as well as with the help of students the sports council has

been able to conduct many successful events in the academic year of 2017-18.

The inauguration of the students and sports council took place on 6th of October 2017. The event was conducted with the graceful presence of P Anand, a well-known Taekwondo champion. The sports council consists of 27 sports executives. This year's General secretary post was to Sajed Syed while Rania Sayad became the chairperson of the sports council for the year 2017-18.

Under the able management of members of the sports council college team participated in almost all sports events organised by Goa University. The college team won five major championships, finished runner-up in two and finished at the third place in five Tournaments.

Agnelo Peixoto a member of the council broke the 18 year old Goa University Tripple Jump record.

The Sports Council tirelessly worked throughout the year to improve the working of various affiliated sports clubs of the college.

The very first task undertaken by the council was Fitness Test under the leadership of Anodh Sheikh. This is a Chowgules own innovation wherein students come up with a series of tests to check their fitness level. This task was successfully undergone with impressive attendance score. The sports council also actively participated in student council's intercollegiate event Tathastu with organising

events like Badminton, futsal, strongmen etc.

The Council was also trusted with the responsibility of supporting Tiger Marathon Club for organising walkathon, Cross Country, marathon and tower run on 15th August 2017, 2nd October 2017, 19th December 2017 and 26th January 2018, respectively.

Finally the biggest event organised by the student sports council was tiger Olympics 2018. The multi sports event was held on 16th and 17th of March 2018. Competitive sports like badminton, cricket, volleyball, futsal, kabaddi, tug of war, basketball and special events such as FIT TIGER and TIGER RUN were organised. Badminton was held in Damodar college while Kabaddi was held at Fatorda ground. The winners of the Olympics were S. S. The Sports Council would like to extend its gratitude to the principal Dr. Nandkumar Sawant, Faculty Adviser and Head of the Department, Dr. Devashish Bagchi, Administrative and Accounts Section of the College, Chowgule Sports Centre and all the students of the college for their continuous support in making this year a grand success.

Chairperson, Student's Council - Report

When you have great set of people who support and guide you at every step all you can do is create history which is just what has happened in the students council 2017-2018.

On the 6th October 2017 the students council of Parvatibai Chowgule College of Arts and Science was officially inaugurated in the hands of principal Dr. Nandkumar Sawant, our faculty advisor Dr. Devashish Bagchi and the chief guest of the ceremony P. Anand. On this day, 12 members of our students council pledged to work hard and get the college into a better place not only inside the institution but also outside the college all over Goa. And recalling all the work that we have done we did manage to get what we aspired at a very great extent.

The first official event that we as council handled was the fun week which was from 18th December to 23rd December 2017. Each of the day were themed different and students had to wear according to the theme each day. We had some amazing games organised for the students which was fun playing as students enjoyed a lot and this was 1st time that the entire college had come together to celebrate happiness. 1st day of the week was a little special because it was related to our college and the theme was "orange is the new black" where people had to dress up in orange or black which was the colour of Chowgule tigers. Last day ended with formals being the theme and the amazing DJ performance by DJ Serj. This was also the best part about the fun week because students came together and danced their stress

off before breaking for the Christmas vacations.

The biggest and the most important event of Students council was "Tasthastu- So Be It" the event was themed "kaliyug" that is the pop- up culture. This event saw around 3500 students all over Goa, participation in the 29 different events that were organised on 22nd and 23rd February 2018. This year was the fourth edition which was successfully organised and saw Padre Conceicao College of Engineering (PCCE) as the overall champions and Goa Engineering College (GEC) as the 1st runners up.

The most important part about being honoured to be in the council as the chairperson of the council is the 5 back to back trumps that we owned. 1st being the Plexus which was organised by Goa Medical College in which we were the overall champions. 2nd victory was the runners up trophy that we won for the event Maand which was organised by JCI Ponda. 3rd and one of the biggest win for the year was Jigyasa 1.0 organised by

Akademia EIEBIS that we were champions for and won a sum of 1,00,000 rupees after which we had created a history in the college. Another victory was the runnersup trophy that we bagged at an event called Anantara organised by Damodar College. The last and the most memorable victory of the year was victory that we bagged for Goa's biggest intercollegiate event that is the "Happenings" which was organised by Goa Engineering College.

Each event that we organised or we participated

has so much to teach all of us. Its completely true that hard work pays off each time and it is also true that nothing in life comes easy ever. If you work for it and own it only then you succeed in life. The biggest life lesson that I have got is Tathastu 2k18 which has taught us so many good values and lessons that will be very useful for me in the future. It has taught me to completely emerge as a strong person who has to be ready to face any obstacles that come on the way to success or how to be punctual and disciplined to complete work on time. It has also taught one more important thing that is team work. When you are a very strong team nothing is difficult to achieve then any situations be faced. We have got so many hurdles and obstacles in the entire year but we have emerged out of it quite successfully with support of the faculty advisor Sir Bagchi, our principal and the vice principals. They have been there for us for every situations that we faced.

Another important person to be mentioned is the General Secretary of the Students Council Mr. Sandeep Jadhav who has been there for all the council members at all the situations no matter what was the problems he saw that they were solved at the earliest. They say that when you have great set of people who do amazing job in their respective field then you are just a queen/king guiding them to create a history therefore another important mention in the success stories of the council are all the members who have participated and won, volunteered, organised and supported all the events that we organised and participated. They were always there for us through the thick and the thin that we faced. If it hadn't been them then we might not have achieved what we have today. Other special mentions that I would like to make are of the administrative staff who have helped the entire council for all the events and functions that were held in our college. Also the account

section who has been so generous and kind and fast in their service that we never faced any issues in making any kind of payments. I would also like to show my gratitude towards all the teaching and the non teaching staff for always supporting us and being there at our backs even for bad situations and last but not the least the Clean Kraft team who has always helped to keep our college very beautiful. A big thank you to all

Being in the council and doing something for the college which has given me so much is the best decision that I have ever made. And after working so hard, when we were appreciated from our beloved faculty advisor saying that we were the best council so far was the best feeling ever. I am sure that when I look back at these days I will never repent but cherish with a big smile on my face. I am entirely thank full to everyone who has given me so much love care and support during this period that I have made nothing else but the most beautiful memories. I hope that the upcoming council will work better than us and make us proud.

Aarati Joshi

Ms. Aarati Joshi, a Second year student, majoring in English and French, applied for and was selected to complete two semesters at Waseda University, Japan, under the academic exchange programme instituted by Waseda University and our college. She is the first student to achieve this distinction! She completed credits in the Japanese Language programme amongst other courses and returned back to complete her undergraduate degree. But that too doesn't seem enough for her, as she now has applied for and is selected to complete her undergraduate degree programme, Faculty of Arts and Humanities, at the University of Porto, Portugal! Ankur Kankonkar

**Ankur Kankonkar felicitated by
Chief Minister, Manohar Parrikar**

Ankur Kankonkar, a visually impaired student hailing from Kindlem in Canacona, scored 94.5% marks in Bachelor of Science (B.Sc.) with Computer Science to become the University 1st Ranker in Science (2016-17)

Ankur, the only child of his parents Shahu and Pramila Kankonkar, had a normal childhood till he was diagnosed with retinitis pigmentosa when he was just 7 years old. Retinitis pigmentosa is a group of eye problems that affect the retina; this condition changes how the retina responds to light, making it hard to see. People with retinitis pigmentosa lose their vision slowly over time.

He was a normal child who used to be an all-rounder, active in all fields and a bright student in Katyayani Baneshwar School. Later while pursuing B. Pharma his life turned upside down when his vision started deteriorating at a fast pace. In the second year he lost his sight completely. He was only 20 years old.

Ankur recollects, "After I lost my vision the world looked dark for me and with no guidance and idea what to do and where to go, I whiled away precious three years of my life. I learnt that the research for this disease was being undertaken in 50 countries but without any breakthrough. I tried all the top hospitals and doctors in the country to no avail. In the meantime I tried alternative medicine but it was not helpful. One day a friend of mine suggested Non Visual Desktop Access (NVDA) screen reader computer software, which prompted me to do computer science as this, I felt, was the best field for the visually impaired".

With literally no financial support from the government and with both his parents retired from govt service he has already set his eyes on doing his masters in Information Technology (IT). Later he intends to conduct research and eventually getting a Ph. D. in artificial intelligence.

However, he laments the lack support for handicapped persons like him and says, "Even after being highly qualified we are not treated equally, most of the time we are better than the normal human beings."

He continues, "I don't like people showing me sympathy; any sort of help is always welcome." Rather philosophically he added, "If I was a normal student with no disabilities I wouldn't have got so many marks, my disability is my strong motivation."

You made us proud! Congratulations.....

ALPHA - THE ULTIMATE FRESHER'S PARTY!

Guys! Guess what? The English department first year students got a mind blowing and a fun filled fresher's party. "ALPHA", the department of English Fresher's induction was held on the 21st of July on Friday in the upper auditorium. The theme for the fresher's party was Animated Movies. The whole auditorium was decorated with balloons and fairy lights giving it a theatre look. The F.Y's came in at 3.00 pm when the seniors were all set to give them the best fresher's party ever.

The SY students were dressed up as animated characters. There was the Alice from Alice in Wonderland, Kung Fu

panda, the Mad Hatter, Russell from UP!, Rapunzel, Dash from the Incredibles, and MegaMind. They started by putting up a small play for the freshers. The play was followed by a welcome speech given by Dr. Sonia da Costa the Head of English Department. Later on, all the fresher's were called down one by one to introduce themselves and to pick a chit, and answer a silly question and collect their mementos (Hand-made badges by their seniors). Not just that, but the seniors also welcomed three new teachers, Ms. Delilah Pacheco, Ms. Gargi Bhat and Ms. Ashwati Jagdish.

Once all the mementos were given out. Asst. Prof Andrew Barreto showcased a

video regarding the English department, and all the events of the last academic year including Pegasus and the Bard by the Mandovi - The Shakespeare Festival. And while this was going on the students were served yummy cupcakes and popcorn (Cakes made by Ms. Savia Gonsalves).

This was not it! The fresher's were once again called down to play Twisters, after which the whole shindig ended with music playing and everyone dancing. What a scene to watch! And finally a lot of photographs were clicked. Alpha ended by 5.00 pm in the evening with a lot of laughter and fun. ***

P.C.C ENGLISH DEPARTMENT NEWSLETTER – VOL. X ISSUE I, SEPTEMBER 15, MMXVII

AN ADVENTURE OF A KIND

How do I even begin to explain Alpha, AKA my first fresher's party to y'all? Well, for starters, a fresher party is a party thrown for us first years by our seniors/ third years and by the English department, to welcome us into the college. An' wowser! What a welcome it turned out to be!

The action started out in a vacant classroom. Twas around three p.m. on twenty-first July, a Friday. And we were excitedly chatting away, clutching our ticket stub-shaped invites close, eagerly waiting to be led into the main venue- The lower auditorium- for the fun an' frolic in store there.

Hustling into the auditorium, we took our places behind the desks which were lined with multiple, colourful balloons an' cans of Red Bull to satiate that thirst. As we sipped on our energy drinks, we were treated to a mad-cap skit put together by the

third year students to awaken the lil kid in all of us- a zany take on the Mad Hatter's tea party starring our favorite cartoon characters from Po the panda to Tangled's Rapunzel

tions to answer and then being inducted into teams by the various cartoon characters by means of marking us with face paint and badges to pin on. This one of a kind intro session

led to some quirky, at times personal questions, resulting in even quirkier answers from the students at whom they were aimed. We were soon bursting into giggles and laughs, unable to keep a straight face on hearing every witty and hilarious response to the odd interrogatives and on seeing our classmates' awkwardness every time they opened the chit and received an embarrassing question to answer. Of

course, the teachers weren't spared either and apart from Andrew sir, they all answered in a straightforward manner, compared to our nonsensical answers.

Soon after, the lights were dimmed and the popcorn and creamy red velvet mini muffins topped with colorful

to Megamind (with a helmet in place of that bulbous head). Speakin of bulbous heads, Bloody Big Head from Alice in wonderland was our compere for the evening.

Introductions were in order as we participated in an introduction session of mad proportions, involving picking out chits with random ques-

This year the eighth edition of this festival was organized on Saturday 09 September 2017. With 11 institutes participating, despite their rescheduled exams, it was houseful! THE BARD BY THE MANDОВI 2017

Every year, the Department of English puts up a marvellous event for all School and Higher Secondary schools in Goa. ‘The Bard by the Mandovi’ is a one day event organised by the first year English tygers, along with the help of their Second year and Third year seniors as well as the faculty of the Department.

This year the event began on a very sinful note, as the students performed a musical drama on the seven deadly sins cited in Shakespearean plays. The play was choreographed by Asst. Prof. Gaargi Bhat and the students were assisted in

their costumes by Asst. Prof. Delilah Pacheco. After the formal lighting of the lamp and an encouraging speech by our Head of Department, Dr. Sonia Fernandes, the event was declared open.

The corridors of our college were filled with enthusiast cries and hurried footsteps as students and participants ran from one place to another to catch a glimpse of every event. Auditoriums were filled with an eager audience who cheered and applauded every performance with immense enthusiasm.

After the events, the participants enjoyed a little dancing and singing in the Auditorium while the scores were being tallied. And finally when the moment arrived to announce the winners of the ‘Bard by the Mandovi 2017’ everyone was excited to hear the results! The day ended on a victorious note for Don Bosco Higher Secondary School, Panjim, as they took home the trophy for first place for the second consecutive year. Sharada Mandir School, Miramar won runners up and Our Lady of the Rosary High School, Dona Paula, won second runners up!

Shakespeare would have definitely been delighted to see the passion and love that students still possess for his works! And whether they won or lost, nobody left this event empty handed. Every student, participant and teacher returned home with beautiful memories and hopefully we will see all of them next year, same time same place, to celebrate Shakespeare once more!

Shout out to Dhempe College and Parsekar College of Education coming in a respectable Fourth and Fifth. With over 200 students participating and organizing events, this year capped a successful decade of competitions. A major highlight of the event were the team mascots that went around terrorizing all in the college. The winner was Team Valak, with their depiction of the character from Conjuring. A very special moment in the festival saw organizers of the last ten years gather together to celebrate the occasion. It was a nostalgic gathering of ex-students who reminisced the times when they too were in the throng of organizing and managing the event.</p>

PEGASUS X: A DECADE LONG LEGACY!

Did y'all hear that faint flutter of wings while on campus at Chowgule this year? Yup, that was none other than the Pegasus that touched down recently. No, I'm not talking about the mythical creature. That's only seen in the Harry Potter movies. I'm talking about the mega event that was organized by our English department and put together by the hard work of the second as well as first years and our teachers. Those gigantic Pegasus wings and painstakingly handcrafted chandelier hanging from the ceiling? Those only came to fruition through sacrificing our month-long break. So did the melodious theme song that went with the video montage detailing the history of this glorious event...10 brilliant years, wowser! The lighting of the sparklers replaced by the lighting of the lamp this time around (No burns were reported, thank heavens!) and the second years had a ball portraying the brave trio- Harry, Ron and Hermione as they conjured up some memories for the inaugural and unveiled a literal treasure box of trophies. Wingardium Leviosa, eh?

Although it lasted just two days on December 12 and 13, it was in fact, a celebration of 10 rocking years of Pegasus. And a whole gaggle of colleges swooped down to join in on this celebration. We also had fictional characters coming to life in the form of each competing teams' mascots. We had Valak, the spooky nun from Conjuring strolling silently through our halls and scaring students and teachers alike, Pennywise the dancing clown from It threatening to stalk and eat everyone up (don't let the sweet smile and balloons deceive ya!), Baba Yaga the witch offering to give willing students (by willing, I mean, those who were brave enough to get past their fear of her sharp and long nails!) a ride on her broom and the cutest Groot ever who grooved to tunes from his boom-box with the Mad Hatter keeping him company. How all these folks stayed in character throughout the two days, I'll never know! My colleagues and I weren't far behind in dressing up as we welcomed our guests like hospitable hosts, while in costume as Death-eaters, pirates, The Joker, Red Riding Hood, Casanova (yours truly!), etc. The second day saw us all in tees with

the Pegasus logo.

Many more characters like Hades and Shylock came to life on our walls in the form of graffiti sprayed on there by participants of the PSS! TSS! event. Superheroes like Dr. Strange, Deadpool and Wonder Woman teamed up with Shakespearean characters on paper to

battle evil via the creativity of the participants of the Toony Lits comic strip event. Heck, we even brought Jesus back to life...even if it was just for Red, our treasure hunt (thankfully, no-one got lost in our woods during this event!)

Thankfully, our college is more than accommodating for all these characters and our upper and lower auditoriums, the quad, campus and even our cafeteria were soon jam-packed! And we

had tons of events to keep those creative minds occupied! For the budding news anchors, there was Zeitgeist- an opportunity to come up with one's own news show. For poets and chefs/foodies/people with a massive sweet tooth, there was Slammit and Just Deserts (drool! I envy the volunteers and judges of this event!) respectively. For board game enthusiasts, how about some Literary Snakes and Ladders in our courtyard? More of a game show fan? That's alright. We had Taboo/Not taboo- a game show with 3 rounds. And for the debators, the stage in our lower auditorium was set for Rapsody and Empty Rhetoric. For the budding dramatists, there was Globe Theatre. For the gifted ones who could stand unflinchingly, look fantastic in mesmerizing costumes and at the same time pose as a realistic book cover, we had Rampage in the quad. Alongside Rampage, the quad also played host to another event known as Booker. And for the ones with panache.....and a paintbrush...well, we had the mosaic event, Panache, where talented artists geared up with their human easels, all set to create some body art (hopefully, no-one ended up with paint in their eyes!). Instead of hills though, we had to settle for the walls of the upper auditorium coming alive with the sound of music... thanks to the musically inclined participants of Bohemian Euphony. Lastly, things heated up with the Roast. As you can tell, we had a little something for everyone...even for social butterflies, Instagrammers, Facebookers and what have you!

Alas! All amazing events do come to an end and all amazing events do have winners as well! So, the winners this year were Team Pennywise, English Dept, Goa University. The runners-up were Team Madhatter from Rosary College, Navelim, followed by Team Valak from MES College, Vasco. Dhempe College and Parsekar College of Education came in Fourth and Fifth. Valak took home the award for best (and possibly the most nightmarish and hellish too!) mascot. Take a bow, everyone and we'll see you all at the next one!

PONDICHERRY-THE FRENCH RIVIERA OF THE EAST

The English department along with the French Department accompanied by Miss Delilah Pacheco (Assistant Professor, Dept of English) and Miss Aswathi Jagadish (Assistant professor, Dept of French) visited Pondicherry in the month of December as part of a study tour for a week. Study tours give students an educational experience that goes beyond learning in a classroom. Visit to Pondicherry was one such great experience.

Pondicherry is a quiet town with colonial heritage buildings and tree lined boulevards. On the first day we had a walking tour of the white town. Roshan, our guide led us from the Tamil quarters, over the canal to the white town. He told us exciting stories of famous monuments and French rulers. The streets have distinctive names such as Rue Saint Martin and so on. The statue of Gandhi stands on a 4 km promenade.

A walk in front of the Raj Nivas gained us a chance of a lifetime. We got noticed by the Lieutenant Governor of Pondicherry Kiran Bedi. After the visiting tour of the Raj Nivas also known as

Palais du Gouverneur we got an opportunity to interact with the Crane Bedi. With our spirits high we left the palace looking forward to the next visits.

The next few days we visited the rock beach, Pondicherry museum, Sunday flee market, Lycée Français, also attended French mass at Notre Dame des Anges and so on. Another highlight was Auroville, famous for Matrimandir. The idea behind this gem is to create a city where people from across the world of all cultures and traditions come and live together in peace. We, the Dept

of English visited UMISARC .During the visit, Prof Dr. Subramanyam Raju (HOD of UMISARC) gave us an opportunity to interact with his students. The students gave us a brief idea of the courses offered and provided an insight into International Relations.

You can dive into delicious French food and savour every bite as you go for a gastronomic ride. The trip exposed us to the French life where the culture is part of the identity of its inhabitants. French influence on the culture can be felt over. Pondicherry has a colour for everyone.

कार्यक्रमात मी पहिल्यांदाच भाग घेतला. संयोजक म्हणून काम करणे काही सोपे नसते. संयोजक म्हणून खूप काही नव्या गोष्टी शिकता येतात कुठल्या गोष्टीवर, कुठल्या कामावर जास्त भर देऊ शकते. कुठलं काम कधी चालू करायचं आणि पूर्ण करायचं हे समजलं. कार्यक्रमांमुळे एकत्रित येण्याची संधी मिळाली. बाकी संयोजक कशात निपूण आहेत ह्याची ओळख झाली. शिक्षक वर्गाकडून खूप काही शिकता आलं.

WELCOME BACK TYGERS!

This year, the English Tygers enhanced their family by welcoming back Ms. Gaargi Bhat and Ms. Delilah Pacheco, two ex-students as new teachers of the department.

Ms. Gaargi, a trained Bharatnatyam dancer, said that her teacher motivated her to read and thus through her passion for dance she got introduced to literature. On being asked why she chose Chowgule College to start her career as a teacher, Ms. Gaargi replied by saying that what she likes about Chowgule College is the fact that it helps students grow and explore different dimensions. Being an ex-student herself, she knows how the college offers various opportunities and gives each student a lot

of exposure.

On the other hand, Ms. Delilah spoke about how the English Department gave her a platform to explore her hidden talents and proved to her that English was a subject worth pursuing. “If you are willing to take a chance, English Department is the right place,” she further added. Being an ex-science student, she said that she changed her stream in first year to Arts to try out English Literature and she has never looked back. She also spoke of how encouraging the teachers from the department are especially, Prof. Andrew Barreto. “He was like a catalyst. He taught and motivated

me to ask questions, take risks as well as accomplish my goals.”

At the end of the interview, Ms. Delilah said that she would want her students to step out of their comfort zones and try

new things, whereas Ms. Gaargi stated that we must make the best use of our present time because our present shapes our unknown future.

The English Tygers are very happy to have such enthusiastic minds on board. Their positive energy and encouraging attitudes, have already led them to a great start with the

students.

The event was held in the upper auditorium and was attended by students of the French department, students from other departments and also guest teachers from other colleges and a few ex-students. The celebration commenced at 11:00 am, with a welcome address from Mrs. Mitra Borker, HOD of French department.

The event was kick started by singing the French national anthem after which the TYBA students performed a skit to show the relevance of Bastille Day. “I Love you Paris” was sung by a group of students from the French department. The highlight of the event was the Fashion show. The culture of the Francophoneregions (regions colonised by France) of the world was flawlessly depicted by the FYBA students. Some of the FYBA students played instrumenatal pieces on guitar and violin. A

mesmerising dance was performed by FYBA and TYBA students showing the influence of American culture on modern France followed by another skit displaying the value of knowing how to speak a foreign language explained in Humourous way.

Every year, on the occasion of Independence Day, the Marathon Club of Chowgule college organises a five kilometer walk. Students that participate and complete the walkathon are rewarded with credit hours.

This year on the 15th August 2017 the students were gathered and ready at the main gates of Chowgule college at 7:30 am. Mr. Devashishi Bhagchi (Sports faculty) made an introductory speech giving credit to the organisers, briefing the students about the dos, don'ts and how-tos and also informed the students the significance of this year's walk. The Walkathon had

been combined with the cross-country walk for the Rally for Rivers- a campaign to spread the awareness about the need to conserve our rivers. With everybody on their marks, the students counted down to "go" and the walk began. There were volunteers posted at regular intervals with bottles of water and course directions. On completing the walk, students were given refreshments. Every student that made it, irrespective of the time taken, had a sense of achievement about themselves. This seemed apt on the occasion of Independence Day. The Walkathon was followed by the flag hoisting ceremony

and cultural programme organised by the students. The Chief Guest of the ceremony was Ramakant Gaude, a senior ex-member of the Chowgule faculty. The Gathering was addressed by Mr. Gunaji Mr. Nadkarni and Mr. Sawant. They reminded everyone present about the struggles of our freedom fighters, how they had an ambition and strived unto death to achieve it. They encouraged students to be bold, pursue their passion and take life head on. The students performed patriotic songs and dances commemorating the National Day as a conclusion of the function. ***

WALK FOR THE FASHION BRAND - MAX

Max, the country's largest fashion forward brand and Elite, the global talent management company were back with another contest- Elite Model Look India 2017.

There was a model hunt in our college on the 11 August 2017, in the quadrangle from 10:30 am till 1 pm. The students were informed well in advance about this and were asked to participate and audition for the model hunt.

The whole event was hosted by Mr. M. J. Bob, who made the whole event lively. Without wasting any further time he called forward girls as well as boys to audition for the model hunt. Some students willingly volunteered whereas, some students had to be pulled out by their friends. When students walked the ramp they had a strong support from their friends, who cheered for them a lot. The students who walked were given a discount voucher by Max and had to fill a form to register themselves for the final auditions on the 19th of August which was held at Mall de Goa.

The whole event ended with a very famous figure, RJ Joed Almeida a special guest for this event, who came forward and spoke a few words about style and fashion.

AETHER – EDITORIAL

SHOULD STUDENTS GRADE THEIR TEACHERS?

Teaching is an art, not everyone can do it. You probably have already come across one teacher that is very bad and doesn't deserve to be a teacher. You always wished that you could get them kicked out of the school or something.

If you remember, "There are no bad students, only bad teachers", says one of the greatest teachers in cinema was Mr. Miyagi from the blockbuster movie. Taking this as the ground for the ongoing debate, my opinion regarding the grading of the student: A teacher can identify current strengths and weaknesses, and work harder in the areas that need development. Students can guide teachers towards providing educational experiences they truly enjoy. Students can highlight a teacher's positive aspects, which can fire the teacher's enthusiasm.

After all, we are all humans.

Opponents of this debate argue that students should not be eligible to rank their educator. Most students are immature and will rank their educator on their own opinions on their educator's educational system. Many will abuse this privilege for their own nefarious purposes, to get less homework or to use cellular devices in class. This will disrupt the learning environment for serious students trying to have a better future. But I disagree; just because a few bad students will be immature and will not be true to the system doesn't mean they should deny students the opportunity.

There should be a site like RateMyProfessor.com for India too like there is for the US. They even have a policy for it. Oh, by the way end of the each semester here in Chowgule College you are supposed to submit an assessment which includes assessment of teaching method and professor as well. So please help improve the education system by submitting it! I'm glad our college has such a policy of assessment! Hope they take it more seriously.

HOW CAN I EARN CREDITS?

How can I earn credits? The common question of every soul in Chowgule college. Today I will be suggesting you guys five easy and fun ways of earning credit.

First of all, you can be a part of the students exchange programme to three different countries- Sweden, Sri Lanka, and Japan. These trips can be a little expensive but the experience and memories one gains are worth the price and also we earn two credits. Secondly, one could join different campus clubs. For instance, badminton club and adventure club give you the opportunities to show your talent, and to enjoy life.

Thirdly, you can join a Portuguese course. By doing this you can learn a new language, and gain knowledge

beings especially during learning phase of their life”, said eminent writer Uday Bhembre at the inauguration ceremony of ‘Srujanotsav’ - a festival of creation at Parvatibai Chowgule College of Arts and Science, Gogol- Margao. The Konkani Department of our college organised *Srujanotsav* festival last week. It lasted for three days from August 15 to August 19. Students took part in various competitions such as face painting, essay writing, singing, cooking competition, etc.

Mr. Uday Bhembre was the chief guest for the inaugural function on the

second day of the event. *“For Konkani language to survive, Konkani literature has to be translated and should reach worldwide “*said Mr. Uday Bhembre. Dr. Hanumant Chopdekar, the H.O.D of the Konkani department and Dean of Languages, Mrs. Mitra Borker were also present for the event. Mrs. Mitra Borker encouraged the students to take part in various competitions through her words, *“Reading, writing, thinking and learning widens your knowledge “*. Dr. Gunaji Desai concluded the event with a vote of thanks.

‘Annabelle: Creation’ is the fourth movie in ‘The Conjuring’ series and the prequel to the film released in 2014, ‘Annabelle’. This is directed by David F. Sandberg and written by Gary Dauberman. When the film’s trailer had released, movie buffs couldn’t stop going gaga about it. The long wait came to an end when the horror film was finally out in theatres on 11 August 2017. It shows film stars Stephanie Sigman, Taliha Bateman, Anthony LaPaglia and Miranda Otto depicting the possessed Annabelle doll’s origin.

‘Annabelle: Creation’ is set in the arid regions of USA, a nuclear family consisting of Samuel Mullins (Anthony LaPaglia), Esther Mullins (Miranda Otto) and their daughter Bee, live happily. Not ever after though because at a very young age, their only daughter dies. After trying out innumerable measures to get back their daughter’s spirit, the couple realises that they’ve actually bestowed themselves with a demon in the doll Annabelle, who wishes to possess the weakest in the house. Few years later, enter a group of orphaned girls, who are sheltered at the Mullins house along with a nun. As we all know that Conjuring 2 had the nun Valak change our perception of nuns, here, Sister Charlotte (Stephanie Sigman) is just another innocent victim to the devil him-

self. Among the young girls, Janice (Taliha Bateman), weakened by polio is targeted by the doll and sets everyone’s life upside down.

Sandberg uses the technique of building suspense, in fact, horror, by using silence. There are various moments in the film where the silence on the screen makes us close our eyes and peep through and see what’s going to happen! The plot of the film is very basic but its progression is what makes it really interesting. It is shot well and the lighting in the whole movie is good in the moody scenes. And not to forget, the song ‘You’re My Sunshine’ by Johnny Cash is ruined for life by making it the devil’s intro tune.

I was almost jumping off my seats with the spooks. But to add to it the whole movie is momentary. The movie isn’t impacting and in fact, you can’t even think of the scariest scene from the movie. But when it comes to the doll, nobody would be able to see a doll with the same amount of love and affection like they used to before, after watching this film. I wouldn’t even want any sort of doll at my place, after watching Annabelle Creation. And that is just because of the how spooky and scary the doll looks.

Finally hard work, determination and a quality of willingness to help others also pays you with extra credit hours. Wondering how? The English department of our college organises and takes up exciting and thrilling events like Pegasus and Shakespeare Festival. REPORT ON PRERNA DIWAS

In India 28th of February is observed as “National Science Day or the Prerna Diwas” to commemorate the discovery of the ‘Raman Effect’, a Nobel Prize winning discovery by Sir C.V. Raman.

This year “Prerna Diwas” was celebrated in a very unique way in the college by sharing third year B.Sc./B.A. student’s innovative project ideas with their juniors using the Poster presentation, with the objective of motivating first year and second year students to think of an innovative and novel ideas for their third year Project.

We believe that our students have the capability of thinking powerful ideas and helping the society with their innovations. Thus the innovative way of celebrating Prerna Diwas will definitely motivate students to think of various innovative ideas and implement the same innovative idea for their third year projects that will lead to new invention or possibility of emerging as an entrepreneur.

The Deans (Faculty of Science, Social Science and Languages and Literature) organized “Prerna Diwas” on three days from 27th February to 1st March 2018 between 10.00 a.m. to 12.00 p.m.

Many junior fellows showed eagerness in knowing what were the

different projects displayed and how they did these projects and various methodologies involved in getting the projects done. These presentations gave ideas for the second years how to frame a project for their third year. It also inspired some students to select a specific topic for their project and also decide whether to do the project in a group or individual.
