And sharing participant's valuable inputs, clarifications, comments, so that Excel based framework for OB mapping can be updated.</li></ol></li><li>3. Mr. Abhishek Gudekar stated that this is the second workshop on the OB mapping, based on some inputs from you all in the first workshop.</li></ol>

- a. He has tried to incorporate those feedbacks in my Excel file. Regarding outcome based education, it is essential to calculate the course outcomes, which we can measure from two parts, one direct assessment and one is indirect assessment.
- b. The direct assessment comes from the theory and practical that is incorporated in the Excel based framework.
- c. He demonstrated the Excel framework with three modification i.e. Change in the question paper. (No optional question) all questions to be made compulsory. He deliberated on the question paper shared By Mr.Ashish Dessai, Assistant Professor, and Dept. of Physics. He shown changes and the way Co & PO can be mapped.
4. Second phase Mr. Abhishek demonstrated mapping CO and PO in Excel based framework at different levels. Also given instructions to enter the details of course and marks in respective CO PO.
5. He also discussed on reframing the question paper and CO PO mapping for practical and non-practical courses, possible issues related to CO PO mapping and entering marks in the framework specifically the attainment of CO PO. Shown several examples to elaborate on the issues and interpretation of the result. Also explained the way to analyze result with respect to attainment of CO in the ranges of threshold's
6. In the discussion it was proposed by Dr. Sanjay Gaikwad, Assistant Professor, and Dept. of Geography, to relook in to statement of CO OP to incorporate the way of mapping the attainments different levels.
7. Dr. Sameenaasked about rationalization of the template and also asked about when and how to start entering data in the template from teacher'sperspectives.
8. Mr. Abhishek replied saying that from the first CA we need to start entering marks but before that we need to prepare question paper keeping in mind the COP PO and level of attainments and demonstrated the procedure after CA one.
9. Also had discussion on communication of the mode and way of evaluation to the student.
10. Also had discussion on target level and target description and Dr. Sanjay suggested to add last level as..Need Improvement. Sameena and Sanjay suggested to synchronize with criteria considered while admitting student in college and the passing percentage / minimum level of attainment.
11. How to differentiate between Skill attainment and marks attainment by student? Is the any relation between marks and skill student?
12. Mr. Abhishek replied that it is has to marked in terms of course outcome. That need to be linked with syllabus, framing of CA SE question paper and allotment of marks.
13. Discussion happen on the In action plan part of template where Mr. Abhishek connected it to the SWAYAM Course to frame action plan.
14. It was thought that this trained faculties will try this template at personal level just as trial / pilot attempt and then just see if it works for the ongoing semester. So the problem faced can be considered for improvement in the Excel based template.
15. Ms. Swati Ghadi and Dr. Ashish appreciated efforts taken by Mr. Abhishek and said that we will address issues related question paper patterns and the options given in it. There is no problem of trying irrespective of result.
16. Dr. Sameena linked this workshop with the NEP & IQAC target the outcome based education and recent SSRS to NAAC tells this the outcome based education, therefore lets experiment first before passing this to entire college. We willlearn and see where to stop, what are the possible difficulties etc. as experiment. Ten we can document all the things.
17. Dr. Sameena asked Mr. Abhishek to share the template and thanked him for the efforts taken for the frame work.
18. Dr. Ashish suggest a pretest of conceptual test before the course state and repeat the test at the end of the course and measure the outcomes. This will relieve burden ad get some robust outcome. The test cover entire syllabus to estimate achievements. It needs more deliberation on this. Dr. Sameena supported and said that she will see the possibility of such things from other experts form the same fields.
19. Finally in conclusion Dr. Sameena thanked everyone for making the workshop successful.
