DEPARTMENT OF ZOOLOGY

<b>Title:</b>	<b>CLEANING DRIVE: A) MANGROVE CLEANING B) BEACH CLEANING</b>
<b>Date and year:</b>	23 <sup>rd</sup> – 25 <sup>th</sup> April 2022
<b>Organised by:</b>	Department of Zoology
<b>Co-ordinated by:</b>	Ms. Mithali Halarnkar Ms. Filomena Pereira Ms. Shalma Mascarenhas Ms. Prasanna Naik Gaonkar Ms. Gautami Manakikar
<b>Students</b>	Bhagyashree Mahajan Dhanaya Naik Kanguri Sanjana AkarshaFalDessai
<b>Objective:</b>	To create awareness on Kitchen Waste Management as well as Understanding First-Aid
<b>Summary of the proceedings</b>	<p>A clean up drive was organised under the Community Outreach Programme. The main purpose of this programme was to clean the mangroves and beach of a particular area and create awareness among the people about the mangrove ecosystem, its importance, uses, and impact of degradation.</p> <p><b>Mangrove Cleaning Drive:</b> The site chosen was at Borim near Chowgule Shipyard. Approximately 300 meters of the stretch of the mangroves was cleaned. Mangrove forests provide multiple provisioning, regulating and recreational ecosystem services, but they are most valued for their role in coastal protection. To prevent deterioration, this cleaning drive was a small effort to evade major problems in future. Plastic was the major component degrading the mangroves in Borim. The students also spoke to the people working and living around that area about the importance of mangrove conservation.</p> <p><b>Beach Cleaning Drive:</b> The students conducted cleaning drive at the colva beach. Besides, they spoke the locals and tourists to create awareness about the conservation of the marine eco-system, it's</p>

importance, uses and impact of degradation. The people were informed not to leave the litter behind on the beaches after activities. They were explained that these pollutants harm marine life and ecology, human health.
