**INTRODUCTION:** The French Club in collaboration with The History Forum organized a curated excursion to Ancestral Goa, Loutoulim on the occasion of 60 years of Goa's Liberation.

On 15 December 2021, the French Club: The Beret Bunch in collaboration with The History Forum organized an excursion to Ancestral Goa, Loutoulim, famously known as 'Big Foot'. This 'Open Air Museum' is the only technology-based museum in Goa. It is a self-travel museum that provides you with an automated guided tour where you acquire information from electronic speakers and from the details displayed on the exhibits. It gives you a glimpse of the authentic rural Goan lifestyle on a platter. Once you enter the main gate you find a Palanquin also called 'Paalka' adorning the wall of the entrance and a beautiful antique fan hangs on your head made from red silk cloth. Moving forward, the whole place overshadows the greenery of shrubs and trees that soothes your eyes. Assorted miniature houses, fishermen, Goan artisans, basket weavers, bangle sellers, and many other small setups of compulsive views were also displayed.

Later we entered the cave of Bigfoot where the mythological story was displayed through paintings on the wall. Besides the Eco-friendly aspects of the setup, another core glared characteristic of the museum is the largest, biggest, fastest Red Laterite Sculpture of Sant Mira Bai carved in on one stone that too in a record time of 30 days. In the area, there are a variety of local and exotic birds, a Spice yard, Bird display, Cane water station, Spring (Boca Da Vaca), Rubber plantation, etc. There was also a special demonstration for the students to weave Coconut palm leaves. Overall, the experience was very educational and informative while at the same time an enjoyable experience.

**INTRODUCTION:**

On 17 December 2021, the fabulous French Club: The Beret Bunch organized a display of the fusion of Goan and French cuisine called "Let's Go Gourmet", on the occasion of 60 years of Goa's Liberation. It was a remarkable moment for India as we were finally free from Portuguese rule. Here at Parvatibai Chowgule College of Arts & Science, Goa Liberation Day is commemorated by conducting multifarious events and activities by various departments. The event began at 12 noon on the college premises. Mrs. Carol Barreto Miranda, the Asst. Professor and Department In-Charge of French at Chowgule College had previously briefed us up about the event and the arrangements so that the event could sail smoothly.

We, the students of the French Department were paired in groups to present a fusion of Goan and French cuisines. All the groups made great efforts to set up a presentable and delectable platter of various dishes. The dishes included the most famous French Baguette paired with the all-time favorite Pao, Cheese paired with Paneer, Coconut-made Macaroons along with Bolinhas, Crêpes along with Alle-Belle, Sulloleo and Filoz and Baguettes with Paneer fillings in one and Goan Sausages in the other. The mouth-watering and appetizing dishes fascinated and allured a great crowd. The French Department received lovely feedback from staff as well as students. We had a lovely time socializing with one another and intensifying our love for Goa and its traditional ways. Moreover, it was a great platform to develop one's communication and organizational skills.

<b>Objective:</b>	To create awareness on Kitchen Waste Management as well as Understanding First-Aid
<b>Summary of the proceedings</b>	<p>50 shops and restaurants were surveyed through questionnaire on gauging the awareness on Single use plastic. The students conducted survey to check their awareness level and thereafter interacted with them to make them more informed. Single-use plastic is a rising concern due to high production and usage, leading to an increase in the plastic content in nature and related diseases and health problems. It is important to educate people and make them aware of its deleterious effects of it on the environment. To spread awareness and know about people's thoughts and choices on single-use plastic, the students carried out the awareness drive. They were informed about the toxic effects of single-use plastic and whether they support a ban on it if the government issues an ordinance. A lot of people had positive opinions regarding this issue and were proud of their eco-friendly choices while some followed inappropriate waste disposal and plastic usage patterns. Students informed them about choices that they could practice daily to help reduce the use of single-use plastic.</p> <p>Also, the students carried out a drive to create awareness on Snakes. Snakes are organisms belonging to class Reptilia and are found in a wide range of habitats ranging from rural to urban areas. They are</p>

often associated with a lot of myths due to which many people are afraid of snakes around them. Through this community outreach programme attempt was made to educate people and know their opinions and beliefs about snakes. Around 50 houses were surveyed. The people were enlightened with some do's and don'ts that they should practice as and when they have an encounter with a snake in their locality and were also made aware of the local snake rescuers available in the area.

<b>Objective:</b>	To create awareness on Kitchen Waste Management as well as Understanding First-Aid
<b>Summary of the proceedings</b>	<p>A clean up drive was organised under the Community Outreach Programme. The main purpose of this programme was to clean the mangroves and beach of a particular area and create awareness among the people about the mangrove ecosystem, its importance, uses, and impact of degradation.</p> <p><b>Mangrove Cleaning Drive:</b> The site chosen was at Borim near Chowgule Shipyard. Approximately 300 meters of the stretch of the mangroves was cleaned. Mangrove forests provide multiple provisioning, regulating and recreational ecosystem services, but they are most valued for their role in coastal protection. To prevent deterioration, this cleaning drive was a small effort to evade major problems in future. Plastic was the major component degrading the mangroves in Borim. The students also spoke to the people working and living around that area about the importance of mangrove conservation.</p> <p><b>Beach Cleaning Drive:</b> The students conducted cleaning drive at the colva beach. Besides, they spoke the locals and tourists to create awareness about the conservation of the marine eco-system, it's</p>

**INTRODUCTION:**

On March 13, 2022, the French Club: The Beret Bunch organised a heritage walk through Margao City to acquaint ourselves with the rich history of the city. Mrs. Carol Barreto Miranda, the Asst. Professor and Department In-Charge of French at Chowgule College, spared no effort in finding the most qualified person to lead the walk, Mr. Lynn Barreto Miranda. Mr. Barreto Miranda is a skilled web designer and creator of the web page My Margao. What kind of tour would it be of Margao if we didn't learn how its name arose? Our guide explained that Margao got its name either from the Portuguese word for "marvelous village"- *Maravile* or after the demon Maru who used to live on the hill- *Mharugav*. We began our tour at the Cidas Almas chapel near Holy Spirit Church, in the old market, which we learnt was built in memory of the 23 people killed in 1890 in a political massacre. The ruins of the building opposite used to be a display showroom for decorative ceramic tiles from across the world.

We moved on to a quaint bungalow that was Margao's first RCC structure and this steel was used to build the Borim bridge. We visited a number of immemorial buildings- The Civil and Criminal Court, the Largo de Republica garden, the Shree Ram temple and adjoining Damodar saal, the Instituto do Abade Faria, the residence of Adeodato Barreto- a major Goan poet and writer. The Park of Poets in Portugal has an installation honouring him. The front door of Monte de Silva's house was adorned with an alluring frog shaped knocker; which were used before the invention of the bell. The same lane also occupies the ancestral home of the Portuguese Prime Minister, António Costa. Mr. Barreto Miranda led our group to many more cultural sites till we concluded our walk at Margao Municipality building, where he showed us the GTS marker for Margao. The walk was the perfect blend of educational and fun and Mr. Barreto Miranda was amazing at catching us up on the rich culture and heritage of Margao.

**INTRODUCTION:** The Department of Sociology, in collaboration with the Human Club organized a rally and a short film screening for the occasion of World Autism Day on the 8<sup>th</sup> of April 2022.

The rally started at 2:30 pm and the students who attended wore blue, were provided posters and their faces were painted with the yellow infinity sign, the symbol for autism, to show their solidarity for the cause. The rally was guided around the college campus as the shouted the slogan “Encourage, Motivate, Accept.” The event was a resounding success, leaving students with a lesson in activism and sensitivity.

Two short films on Autism were screened in the AV room at 3:45pm after the conclusion of the rally. The films endeavoured to sensitise the students present about the nuances of autism and the struggles that people who deal with it go through, both personally as well as socially. The event was concluded with the sharing of some personal anecdotes by students as well as a vote of thanks by the department head.
