They are often at risk of multiple discrimination and violence. There are problems with people with disabilities' access to the general education system, to be employed, to live independently in the community and to move freely. The programme identifies specific policies and actions to improve the equality of and access to rights by persons with disabilities over the coming years. The main aim of the programme is awareness raising. Raising public awareness on disability is an integral part of the fight against prejudice and negative attitudes towards persons with disabilities. Both education and awareness raising are powerful tools to change mindsets, combat discrimination and ensure equal opportunities for all. The programme highlights the role of all relevant stakeholders in raising awareness on disability.</p> <p><b>AIMS OF PROJECT</b></p> <ol style="list-style-type: none"> <li>1.
