DEPARTMENT OF ECONOMICS

ECONOMICS IS EVERYWHERE AND UNDERSTANDING ECONOMIES CAN HELP US MAKE BETTER DECISIONS.

TYLER COWEN

Economics was originally called 'political economy'

Economics is politics and it can never be a science. Yet the dominant neo-classical school of economics succeeded in changing the name of the discipline from the traditional 'political economy' to 'economics' at the turn of the 20th Century. The Neoclassical school wanted economics to become a pure science, shorn of political (and thus ethical) dimensions that involve subjective value judgments. This change was a political move in and of itself.

ECO VISION 2020

An Inter - higher Secondary School event "ECO VISION" was organised on 10th December 2020. The main theme of the event was "Rising above the dark". The event was submission based and the results were declared live on department Instagram account @doe_official. The aim of the event was to inspire the young students and give them an insight of the Department of Economics.

Eight Higher Secondary Schools participated in the event:

1. BALRAM HSS,CANCONA,
2. M.E.S. HSS, ZUARINAGAR
3. ST. XAVIER'S HSS, MAPUSA BARDEZ
4. Smt. CHANDRABHAGA TUKOBA NAIK HSS, CURCHOREM
5. S.S SAMITI HSS, KAVLEM PONDA
6. GVM'S SMT NELLY JOILDO AGUIAR HSS,FARMAGUDI PONDA
7. Government Higher Secondary School Canacona
8. Rosary Higher Secondary School Navelim

The competitions held were Marketing mix, Quiz; Turn the table, Short film presentation etc. The overall winners were St. Xaviers higher secondary school, Mapusa, the first runners up was Smt. CHANDRABHAGA TUKOBA NAIK HSS, CURCHOREM and second runners up were BALRAM HSS, CANCONA . The Event coordinator was Assistant Professor Ramu P Pagi and Student incharge Miss Rahmat Shaikh.

Organising Team of ECO VISION 2020

INTERACTION WITH F.Y STUDENTS

Economics excites me more than any other subject and which is the reason for getting in major in economics in this esteemed college. Going online was unfortunate because of not being able to participate in various events and being unable to interact with fellow batch department mates. The faculty is trying their level best to help us and make sure we understand concepts even during the online lectures. I have interest and I am planning to get into audio production after my Post Graduation.

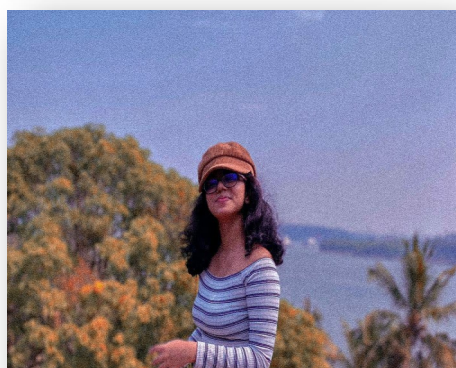

-CURT DSOUZA ,FYBA

-ALIA COLACO,FYBA

Parvatibai chowgule college offers a variety of courses with great infrastructure and one of the best faculties. Apart from that the activities conducted here made me want to be a part of this prestigious college. My experience is going good despite of the pandemic. Even though the classes are online I have been able to understand quite well and the faculty is always at help to fix problems as soon as possible and they have been very kind and tolerant. For now I am trying to explore the various opportunities and an economics graduate can get and will decide accordingly which suits my interest.

-LILYAN GOMES, FYBA

The reason I chose economics, to be honest I think economics is a great subject which will help me for my future for example business planning, management and goes on. So I think that's the reason it made me choose economics. It's amazing, met different people plus experienced new things everyday along with my studies and I made some friends. I think the faculty is doing great and it's amazing to experience online learning so yeah I'm actually happy by this online classes. About my Post Graduation plan I am confused but I'm giving myself some time to think about it.

We shouldn't measure everything in terms of GDP figures or economics. There is something called as Quality of Life.

- **NIGEL FARAGE**

FACT YOU DIDN'T KNOW

The term Wirtschaftswunder describes the rapid reconstruction and development of the economies of West Germany and Austria after World War II. The key figure during that time was the Minister of Economics, Ludwig Erhard, who went down in history as the "father of the German economic miracle."

UPCOMING EVENT: 'REVELATIONS 2021

The Department of Economics is organizing its annual inter-collegiate event "REVELATIONS 2021" on 20 MARCH 2021.

INTERACTION WITH STUDENTS

My overall fascination for the field of economics is how the world runs on it and also is a leading factor in uniting as well as dividing several countries, Also for the future entrepreneurship is an essential quality. In Chowgules we get the option for economics hons (major), which is what I was looking for. My experience in has been good, the reason I do not say best is the online mode of teaching, which was the only alternative due to the current global situation. We're also given a lot of exposure towards various competitions and events, but the quality of people and the quality of faculties is what I really liked. I'll probably pursue a masters in Economics itself as of now. I don't have any further plans yet. The faculties are extremely helpful and cooperative. They try to make sure and give the students enough time to take care of extra activities. It will be more fun in typical classroom teaching due to the one to one interaction between student and the teacher.

-ISHA PATKAR, FIRST YEAR B.A

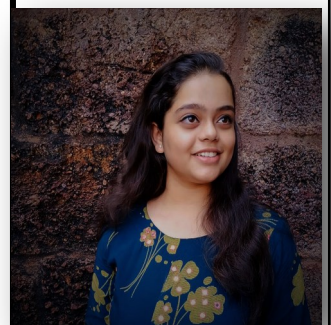

My interest in economics developed since 11th std. and I was sure to do something in economics. A lot of my knowns suggested Parvatibai Chowgule College as one of the best colleges offering economics in Goa. Even though we missed out a lot of stuff which used to be conducted offline, the experience going online is pretty good, hoping to go offline soon. The teachers have really put all their efforts to get the best of us during this pandemic. After Graduation I am planning to get a masters and probably do my Ph.D. in this subject.

-SUMEET SHAH, FYBA

VIEWS ON ONLINE CLASSES

We know that the entire world faced the sudden shock of a global level pandemic in the year 2020. The education, the process of teaching and learning was worst hit by it but as the sop's regarding the social distancing are being relaxed .Now the education is also coming back on track slowly and steadily. The educational institutions have started offline lectures. This has now, helped the first years in a great way as we are able to meet all of our teachers at least twice in a week. This has also helped us in understanding the concepts in a better manner.

I would like to thank the teachers for giving each and every student the personal attention that was needed, not only virtually but also in reality.

-Pranjali Patil , FYBA

VIEWS ON ONLINE CLASSES

Due to the pandemic the online classes are now growing needs over the globe. We are been provided with proper education while staying at home through online teaching. With online classes. I'm able to do all the work at my own pace, as long do my submission before the due date and participate appropriately, this gives less pressure and intensity. The best part of online classes is, it can be recorded, archive and shared for future reference. Every lecture's recording as well as the references, notes are provided by the teachers on daily basis which allows us to access the learning material at the time of my comfort. We have a teacher as a mentor who guides us. This has also inspired me to explore new digital learning tools. Thus, found online classes helpful.

**Urmeesha Nakrani, FYBA****NEW FACULTY IN THE DEPARTMENT OF ECONOMICS**

I did my Graduation at Government College of Arts, Science & Commerce, Quepem- Goa in Subjects; Economics & Marathi, in 2017. I have represented my college for all 3 consecutive years for All Goa Yuva Mahotsav & we won all 3 years (2015, 2016, 2017). So, I can say that, it was my big achievement & contribution towards my college. I have earned my Post Graduation Degree from Goa University (MA in Economics) in the year 2019. During my PG also I have represented Goa University in activities like Yuva Mahotsav, Kaoss. It was my dream to become a teacher since childhood & finally my dream come true at Smt. Parvatibai Chowgule College of Arts & Science. I like the environment of the college. The campus is super cool with statues of 'Guru & shishyaas' which just reminds me of 'Gurukul Education System'. People speaks less here but 'e-mails' speaks more. .
